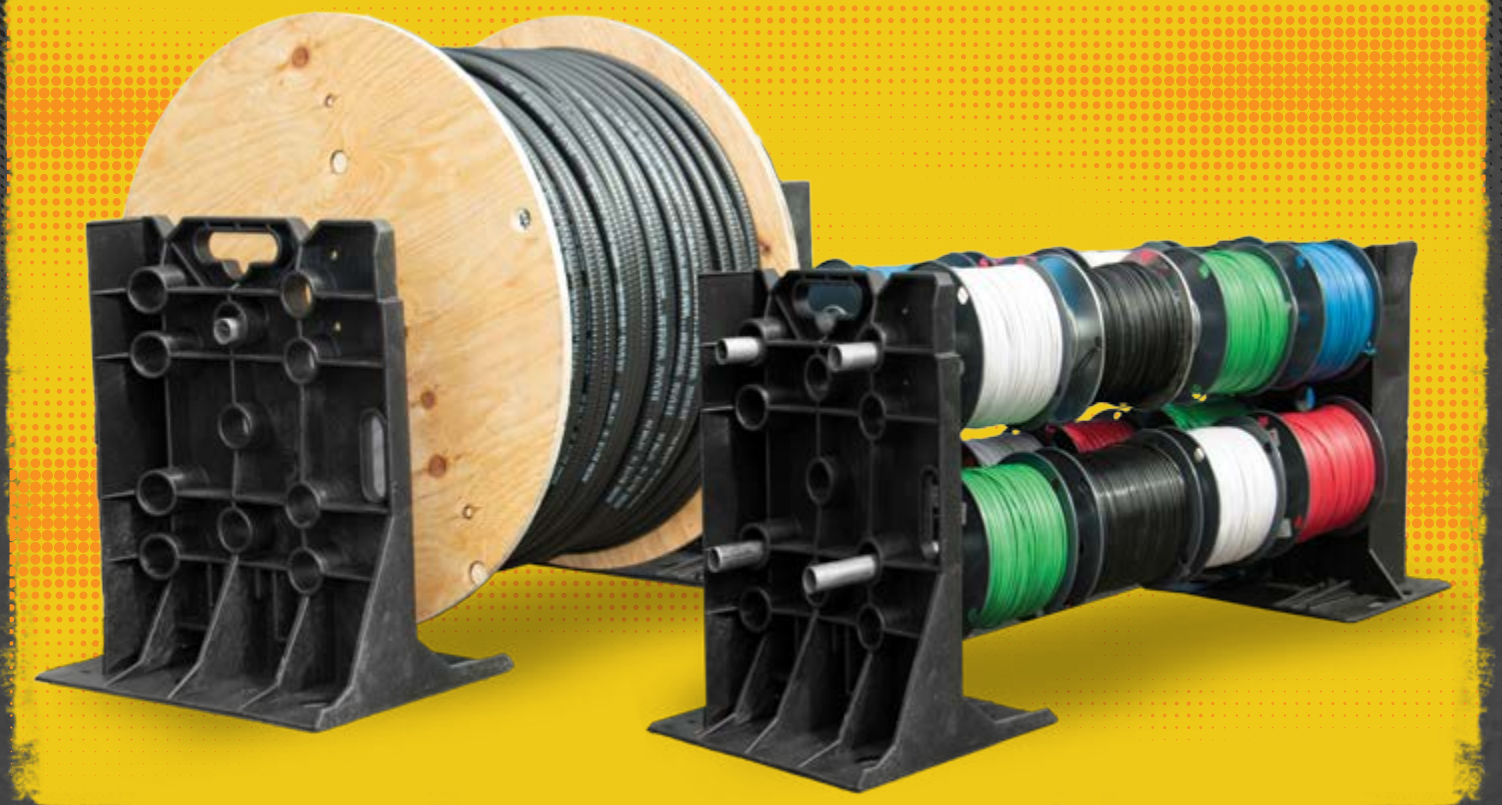
RACK-A-TIERS XL

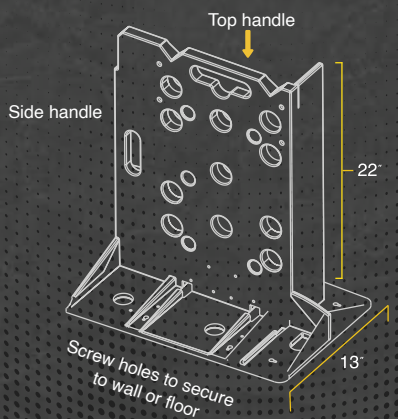
THE NEXT TOOL THAT DOES IT ALL

ONE SIZE RACK-A-TIERS XL FITS ALL - UP TO: 40” / 1M • 500 LBS / 226 KG WIRE REELS

Part# 11470

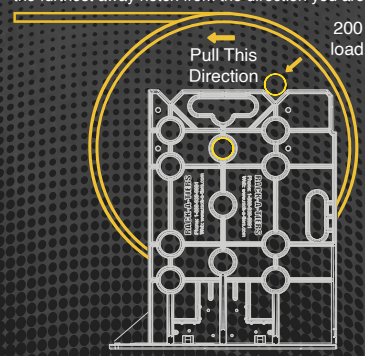
MADE IN USA





THE RACK-A-TIERS ORIGINAL HAS SOLD THOUSANDS OF UNITS SINCE HITTING THE MARKET IN 1995. A LARGER VERSION HAS BEEN A LONG TIME COMING. ENTER THE RACK-A-TIERS XL. MADE WITH THE SAME GREAT MATERIAL AND DESIGN FEATURES AS THE ORIGINAL, THE RACK-A-TIERS XL BUILDS ON RACK-A-TIERS IN A LARGER EVEN MORE VERSATILE MODEL.

If you need to pull from the top notch, set up your spool on the furthest away notch from the direction you are pulling



WE TOOK THE ORIGINAL RACK-A-TIERS AND MADE THEM BIGGER & BETTER!

RACK-A-TIERS 2.0

YOUR FAVORITE MULTI-PURPOSE WIRE DISPENSING SYSTEM JUST GOT AN UPGRADE

RACK-A-TIERS 2.0 FITS UP TO: 34" • 300 LBS / 136 KG WIRE REELS

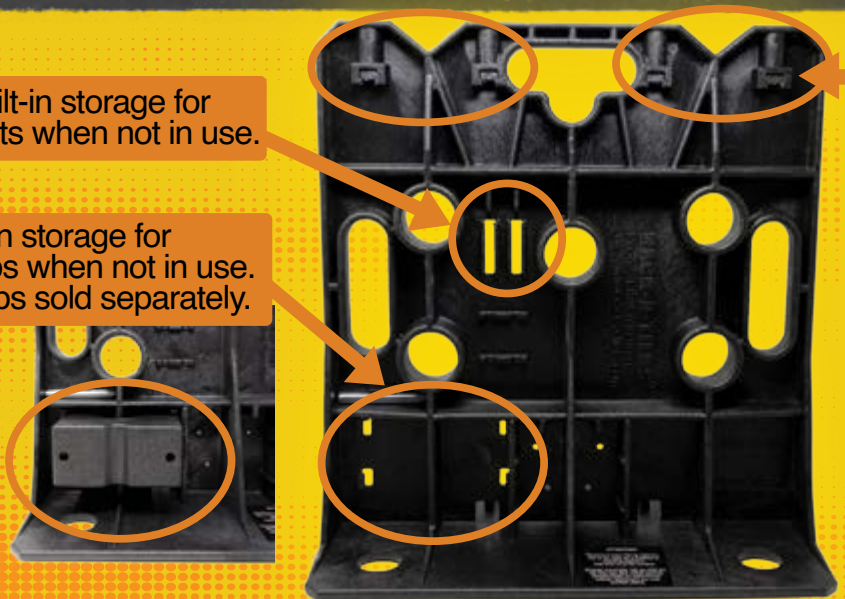
MADE IN USA

Part# 11480

DO EVEN MORE WITH THE MOST VERSATILE WIRE DISPENSER ON THE MARKET

Built-in storage for bolts when not in use.

Built-in storage for clamps when not in use. Clamps sold separately.



Brand new hex nut inlay feature to add bolts and accessories, which are sold separately.

Patent Pending.

RACK-A-TIERS ACCESORIES

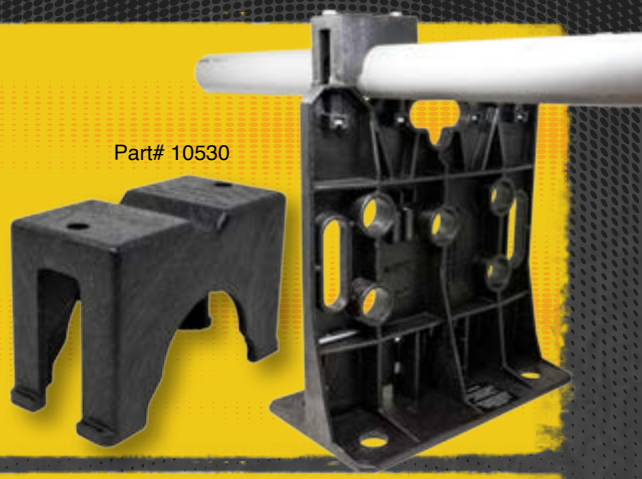
THE RACKY CLAMP

Designed for second edition Rack-A-Tiers wire dispenser models with built-in nuts. This clamp can be used for a wide range of jobs including cutting conduit and dispensing wire.

Features:

- Comes with 2 bolts that thread directly into your second edition. Rack-A-Tiers Wire Dispenser.
- Clamp various size conduits or threaded rod from 1/4" up to 4".
- Made in USA.

*Only compatible with Rack-A-Tiers 2.0 and 2.5 models (Part# 11480 and 11485). Will not work with Original (#11455) or Rack XL (#11470).



Part# 10530

RACKY WIRE GUIDE

The perfect upgrade for your Rack-A-Tiers Wire Dispenser. Mount it with the included knob bolts, adjust the guides, and start pulling wire smoothly. It prevents wire from jumping off the reel and binding around the axle.

Features:

- Includes 2 wire guides, each with 4 holes (2 at 7.5mm, 2 at 6mm).
- Easily pulls #8 wire; larger sizes may reduce dispensing flexibility.

*Only compatible with Rack-A-Tiers 2.0 and 2.5 models (Part# 11480 and 11485). Will not work with Original (#11455) or Rack XL (#11470).

Part# 10540

RACKY RELAX SEAT CUSHION

Upgrade your lunch breaks with the Racky Relax Seat Cushion. Designed to attach to your Rack-A-Tiers, it provides much-needed support and ultimate relaxation.

Part# 10500

*Will not work with Rack XL (#11470).

MADE IN USA

Rack-A-Tiers XL

- 500 lbs. weight rating.
- Max reel 40".

Rack-A-Tiers 2.5

- 300 lbs. weight rating.
- Max reel 38".

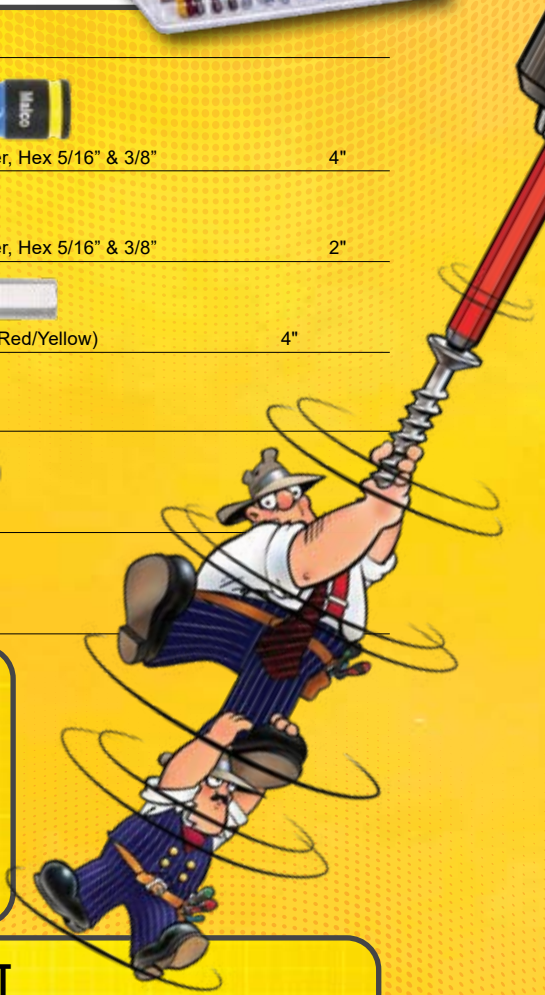
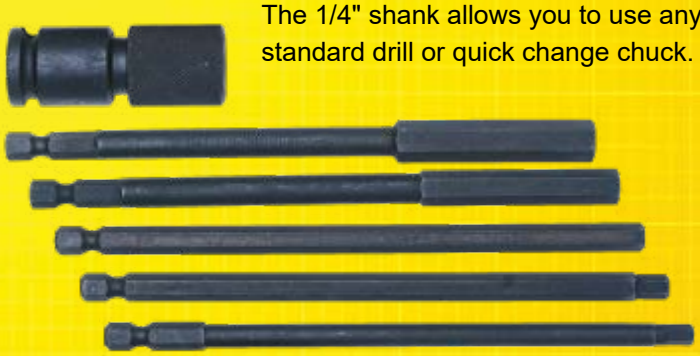
IMPACT DRIVER SOCKET ADAPTOR SET

PART#	DESCRIPTION	LEN.
70325	1/4", 3/8",1/2"	2.5"



ALLEN HEAD DRIVER BIT KIT

These high quality hex key allen bits are 6" long for increased versatility. Also included in the kit is a 3/8" socket adapter. The 1/4" shank allows you to use any standard drill or quick change chuck.



PART#	DESCRIPTION
72600	Allen Head Driver Bit Kit

Hex Bit Kit

Part# 72712

Color-coded hex bits in a 7 piece set

Our color-coded hex bits you know and love, are now available in a 7-piece kit. Reach in your bag and know exactly what size bit you're pulling out. Convenient magnet in the head so your screw doesn't fall off when you're at the top of a ladder and on your last one.

Kit Includes:

- 2.5″ x 1/4″
- 2.5″ x 5/16″
- 6″ x 1/4″
- 6″ x 5/16″
- 6″ x 3/8″
- 6″ x 7/16″
- 6″ x 1/2″

Rough-In Bit Kit

Part# 72711

The 7 key Racky driver bits you need when roughing in a house or condo

The Racky Bit Rough-In Kit features all the color-coded driver bits you need for roughing in a house or condo. Includes our popular double-ended impact bits.

Kit Includes:

- 4″ - #1 Green/#2 Red Robertson Square Double-Ended Impact
- 6″ - #1 Green/#2 Red Robertson Square Double-Ended Impact
- 4″ - #2 Blue Phillips/#2 Red Robertson Square Double-Ended Impact
- 6″ - #2 Blue Phillips/#2 Red Robertson Square Double-Ended Impact
- 6″ - #1 Green Robertson Square
- 6″ - #2 Red Robertson Square
- 4″ - #3 Black Robertson Square

Finishing Bit Kit

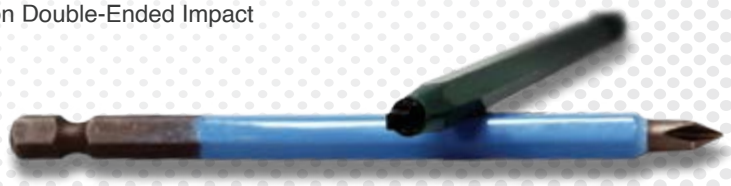
Part# 72710

The 5 key driver bits and 2 drill tapping bits you need when finishing a house or condo

The Racky Bit Finishing Kit features all the color-coded driver bits you need for finishing a house or condo. Includes 6-32 and 8-32 tapping bits for when those cheap machine screws break on you.

Kit Includes:

- 4" – #2 Phillips/#2 Robertson Double-Ended Impact
- 4" – #1 Robertson Square
- 4" – #1 Phillips
- 6" – Robertson Square
- 6" – #2 Phillips
- 6-32 Tapping Bits
- 8-32 Tapping Bits



Nut Zipper

Part# NZ0375

Nut Spinning Drill Attachment

Tired of spinning nuts by hand or using makeshift tools? Meet the drill-operated attachment that speeds up nut installation on threaded rods, making it perfect for conduit racks and fixtures. Reduces the risk of repetitive strain injuries from manual work. It works at any point along the threaded rod, ideal for multi-tiered racks.

Features:

- Fits ¼", 3/8", and ½" rods.
- Increases efficiency for strut racking.
- Durable thermoplastic with steel bearing.
- Made in the USA.

Extendo Nut Driver

Part# NT1050

Designed to adapt a standard 1/2" conduit into an extension nut driver for threaded rod. Utilizing the concept of a hollow shank nut driver, this gives you the flexibility to cut the conduit any length you need to drive the nut up the full length of threaded rod. With this tool on hand, you no longer need to buy multiple size hollow shank nut drivers!

Features:

- 7/16", 9/16", and drill attachment.
- 7/16" nut driver attachment for 1/4" threaded rod.
- 9/16" nut driver attachment for 3/8" threaded rod.

The Strutter

Part# 72075

A super short socket to secure 1/2"

Installs 1/2" bolts into electrical strut channel for maximum strength. The Strutter Socket can be turned sideways, put into the strut, then slid over to the 1/2" bolt and tightened up. Before, you could only install the 3/8" bolt, but now, for heavy loads and maximum strength, use The Strutter Socket.

Rolgear

Part# SDR14

The Rolgear ratcheting multi-bit screwdriver includes 15 different tips.

Features:

- Ergonomic, cushion comfort handle.
- Smooth and silent ratcheting.
- Contains: Slotted - 3/16", 1/4";
- Square #1, 2, 3, 4; Phillips #1, 2, 3, 4; Torx #10, 15, 20, 25.

Reemer Bit

Part# 72422RB

Double-Ended #2 Phillips & #2 Roberston Pipe Reeming Bit

Features:

- Reams all sizes of conduit.
- Tighten your connectors and couplings.
- Fits Power Drill chucks and quick release.

Edges sharp enough to do the reaming but won't cut up your fingers!

LADDER MATE

MULTI-USE LADDER ORGANIZER

*Tools Sold Separately
Part# 65300

Tool and accessory tray that attaches to A-frame step ladders to hold your tools, fittings, fasteners, and more.

Features:

- Saves you from going up and down your ladder.
- Holds hand tools, paint cans, fasteners, fittings, or construction materials.
- Can be customized to fit your needs using the three dividers.
- Made in the USA.

AERIAL TOOL BIN

AERIAL LIFT TOOL STORAGE BIN

*TOOLS SOLD SEPARATELY
*DOES NOT INCLUDE METAL BOWL
Part# ATB1312

Offers a safe and efficient way of storing your tools at waist height while on a variety of Man-Lifts.

Features:

- Designed to be used on: Aerial Platforms, Scissors Lifts, Boom Lifts, Scaffolding, Swing Stage Railings, and Mast Climbers.
- Attaches to square or rounded 90 corners with two locking bolts.
- Two removable partition walls allow you to keep your tools separated and organized.
- Made in the USA.

STAPLE SHARK

CABLE STAPLE REMOVER & PRYBAR COMBO

Part #52455

A cable staple remover on one end and a multi-purpose pry bar on the other. Can pull out the oldest and most difficult-to-reach staples of any size without damaging the wire. Turn the Staple Shark around to find a handy pry bar. Built with hardened steel, it is sturdy enough to pop out baseboards or pull nails.

Features:

Can remove S1, S2, S3, and S4 staples, as well as "nail on" staples and cable straps without any adjustments.

STAPLE PULLER!

HOLDS STAPLES!

PRY BAR!

RULER!

BEER OPENER!

CROC'S WIRE STRIPPERS
THE BEST WIRE STRIPPERS ON THE MARKET

Croc's Wire Strippers

Part #47000

Sometimes referred to as the best wire strippers on the market, the Croc's Needle Nose Wire Strippers will impress even the toughest critics. These strippers have countless features, each designed to make your job easier and more productive.

Croc's Jr.

Part #47002

Rack-A-Tiers' famous wire strippers in a more compact size. Croc's Jr. has the same ergonomic glow-in-the-dark handles as the original Croc's Needle Nose Wire Strippers. Protect your hands and wrists from soreness while you effortlessly strip wire sized AWG #8 – #22.

V-Cutter

This is the new electrician's knife. One of the smartest inventions to come to market this decade is the V-Cutter. This simple little blade attaches to most wire strippers and allows you to strip cable with a single swipe.

Features:

- A new way to strip NMSC cable.
- Easily attaches to most wire strippers.
- Strips cable in or out of electrical boxes with action.
- Virtually eliminates nicking or cutting the wire insulator.

Part #47010

Clip Whacker

Part# 54100

Magnetic Beam Clamp Tool

Used to hammer on flange clips for running conduit, MC, Reloc, data cable, and other means of piping. Uses a rare earth magnet to hold clips in place and make loading the next clips faster.

Features:

- Fits all sizes of flange: 1/8”- 1/4”, 5/16”- 1/2” and 9/16”- 3/4”.
- Hammer on beam clamps the first time – every time. Just load a clip, line it up, and hammer away.
- Holds hammer on beam clamps in place using a rare earth magnet.
- Hammering surface is rounded and wider than the tool itself to protect hands.
- Small enough to fit in any tool pouch or bag. Aircraft grade aluminum makes it lightweight.
- Patented Design.
- Made in USA.

Jet Level

Part# 45404

Level Measuring Tool

This convenient and strong pocket level comes with 4 precision vials of 0, 30, 45, and 90 degrees.

Features:

- CNC milled from 6061 aluminum extra-large “VD” groove, straddles up to 10” diameter.
- Rare Earth magnets for extra holding.
- Water and shock resistant.

Checkpoint

Part# 89886

Magnetic Laser Level

Perfect for the professional who demands accuracy and convenience on the job.

Features:

- Thumb screw and notch system creates aligned bends.
- Class IIIa diode laser 3-axis for accuracy, lasts 10,000 hours.
- 4-vial system reads 0°, 30°, 45° and 90°.
- 3 oversized rare earth neodymium magnets.
- 5-½ inch Billet 6061 Aluminum Alloy Body.
- Exclusive V-Groove System allows Ultra Mag LE to straddle any pipe up to 10 inches.

The PUCK

Part# 40950

Ground Clamp Socket For T-handles & Eye Bolts

A NEW SOLUTION FOR INSTALLING GROUND CLAMPS

When used with a standard 1/2-inch drive socket, The Puck provides proper leverage to allow ground clamps to be quickly, easily, and more securely installed in hard-to-get-to places versus screwdrivers or channel-lock pliers.

Features:

- Made from aircraft aluminum.
- Works for eye-bolt and T-handle.
- Fits industry-standard ground clamps.
- Fits common 1/2-inch drive socket wrenches.
- Provides proper leverage on short T-handles.
- Made in USA.

Head Light

Part# 54075

USB Rechargeable LED Headlight

USB rechargeable so you never have to worry about buying more batteries.

Features:
- Three Modes: Bright, dim, and strobe.
- Run Time: 5 Hours
- Max Output: 150 Lumens

PULSE TRACER

Part# 99030

The Most Affordable Circuit Tracer on the Market

Instantly creates a visual and audible pulse when plugged in to identify circuits.

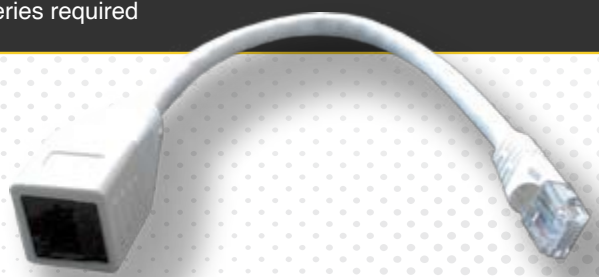
Features:
- Use a clamp meter to detect the variance in current at the panel for easy circuit identification.
- Rated 120V/15A.
- Gator clamp, adaptors, and bulb included.

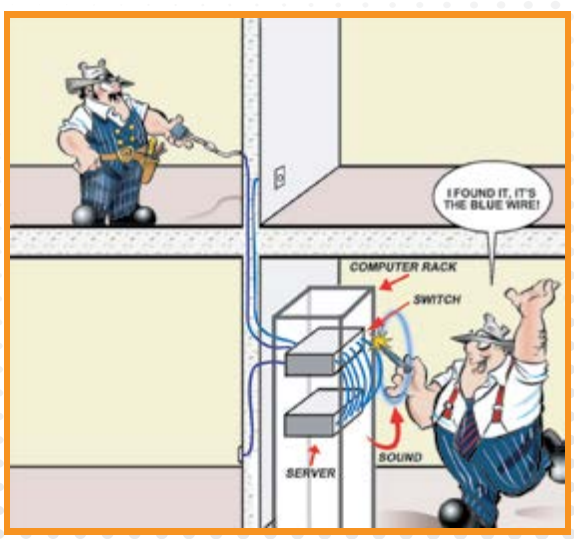
Tracer Wizard Toner Adapter

Part# 99060

Turn your analog toner into a digital toner with the Tracer Wizard! It allows a live Cat 5/Cat 6 cable to be toned out with an analog tone generator without having to unplug cables from a switch in the network room. A great economical option!

Features:
- Devices DO NOT have to be taken offline to listen to the tone on the wire
- Locate cables fast, easy and problem free
- No batteries required

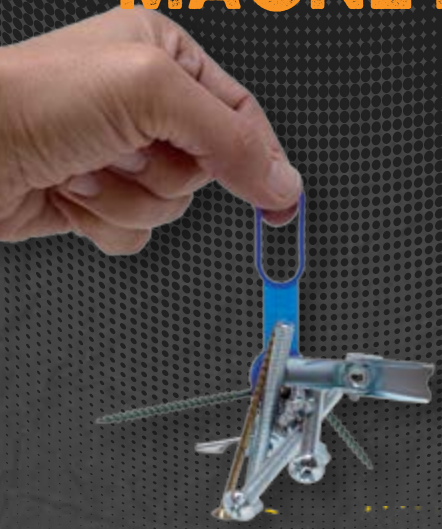




Turn Your Analog tester into a digital one!

STUD BALL
MAGNETIC STUD FINDER

Part# 52300



Eliminate the guesswork when finding stud nails or screws with the Stud Ball Magnetic Stud Finder. Detect metal through 1/2" or 5/8" drywall, ceramic tiling, 3/4" plywood paneling, and other thick building materials.

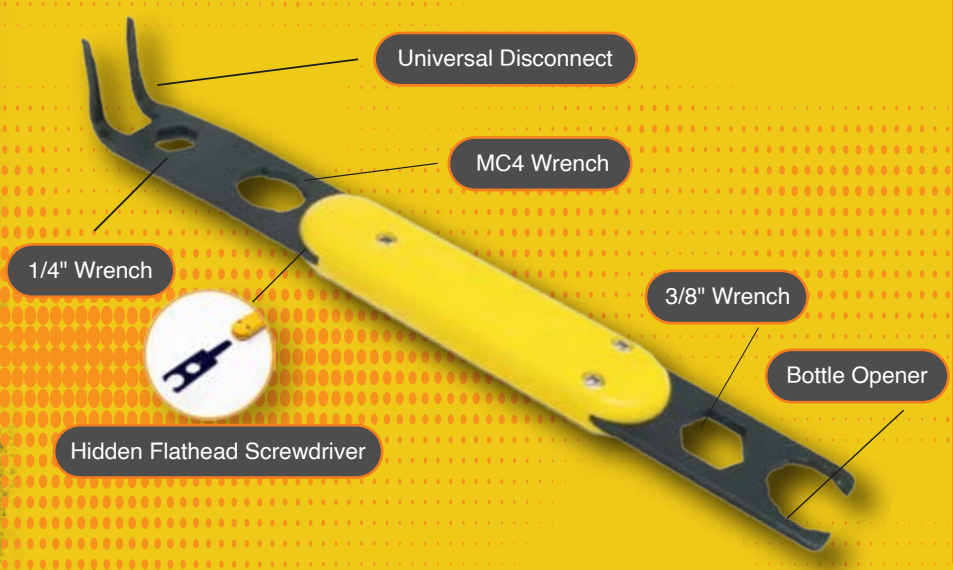
Features:

- Stud Ball uses a rare earth magnet to detect metal through walls. It locks onto the precise location of any metal frames, screws, or nails.
- Always at full strength and ready to use, you can trust it to show you the right spot to drill or cut every time.
- Find 40 or more studs in a wall with 5/8" drywall in less than a minute. The Stud Ball will stop at the exact location of any screws, plates, or frames.

Part# 30200

SOLAR SERPENT
5-IN-1 MULTIPURPOSE SOLAR CONNECTOR TOOL

Unplugs, tighten, and loosen any type of solar panel connector! The universal disconnect works with MC4, T4, PV4, PV4-S and Amphenol H4 solar panel connectors so you always have the right tool no matter the job.



Features:

- Works with MC4, T4, PV4, PV4-S & Amphenol H4 solar panel connectors.
- ¼" and 3/8" wrench for tightening or loosening connectors.
- Detachable end with an MC4 connector wrench and flathead screwdriver.
- Solar serpent is a multi-tool with everything you need for solar work.
- No matter what brand of solar panel you're working with, Solar Serpent has you covered.
- Solar Serpent's design and high-quality materials make working with solar connectors effortless. Work faster without the risk of damage caused by low-quality tools.

AC Sensor

Part# 99000

Detect 50 – 1000 Volts AC

Displays a bright red glow to alert you to the presence of 50 – 1000 Volt AC in insulated wires, wall receptacles, fuses, junction boxes, and electrical systems.

Features:

- Prevent accidental electrical shocks.
- Sense voltage without metallic contact.
- Made in the USA.

Ultimate AC Sensor

Part# 99001

Detect 50 – 1000 Volts AC with Light and Sound Alerts

Non-contact detection of 50-1000 VAC. A bright red glow and audio alert indicate the presence of AC voltage.

Features:

- Detects 50-1000V AC
- Bright 360-degree LED indicator lights
- Wiring error identification and explanation.
- Beeping audible indicator confirms presence of voltage.
- Made in the USA.

Part# 99020

AC Line Splitter with GFCI Tester

Voltage and Current Measurement with Built-In GFCI Tester

Verify your receptacle wiring, measure voltage and use your clamp meter to measure current up to 15A.

Features:

- Voltage & Current Measurement Rings
- GFCI Button
- Socket Connection Indicators
- Current Maximum: 15A
- Input Voltage: 120V

Panel Buddy Knockout System

Part# 7WBK100

Knockout Removal Kit

Removes knockout in half the time, with half the effort. Securely fits on the edge of the panel and has a hole for the modified screwdriver to go through, which increases leverage when pushing out the knockout and protects the drywall surface from rubbing against the screwdriver.

Features:

- Kit removes knockouts on Electrical, Security, Alarm, and Datacom Panels.
- Works with lipped and non-lipped panels.

Slyder: Driver Bit and Nut Spinner Multi-tool

A multi-tool that drives wire nuts and screws. To be used when splicing wires in a junction box. The wire nut driver slides on a 6″ Robertson #1 or #2 hex driver to enable the tool to function as a wire nut driver or screwdriver.

Part# 40802
#2 Red Square + Slyder

Part# 40801
#1 Green Square + Slyder

Features:

- No need to switch tools so you save time splicing.
- Save your arm from repetitive strain injury.
- Ensures the wires are correctly twisted together when operated properly.
- Patent Pending.

Nut Blaster

XXL - Part# 72102

XL - Part# 72101

Wire Twisting Tool for Tightening Wire Nuts

Makes quick work of tightening wire nuts. Simply attach to any standard drill and tighten your wire in seconds! Say goodbye to the carpal tunnel and hours wasted tightening wire nuts by hand. When the time comes to splice all your wires together, you'll be able to finish. Each wire in 3-4 revolutions. Our XL edition is fitted for residential sized wires, and XXL for even larger jobs.

Features:

- Nut Blaster XL Yellow opening 5/8″ plus wings. Fits all brands – yellow, tan, and red.
- Nut Blaster XXL Blue opening 7/8″ plus wings. Fits all brands – Large grey and blue.
- Allows you to tighten wire nuts using a drill or driver, reducing the strain on your hands.
- Made of high-impact, heat-stabilized Delryn plastic which provides increased stability and durability.
- Made in USA.

NUT SNUGGER
MAGNETIC LOCKNUT HOLDER

Stop bashing locknuts with your flat blade screwdriver and get yourself a Nut Snugger! Unlike other methods, this allows you to install a connector on your own when it is out of reach. Holds locknuts in place using magnets and allows you to easily install conduit on the other side. As a ratchet attachment, the Nut Snugger seamlessly tightens locknuts in seconds.

Features:

- Available in 1/2″ or 3/4″ locknut sizes or get both in a kit.
- Can be used with adjustable wrench, tongue and groove pliers, box wrench,and 3/8 drive ratchet.
- Precision cut teeth and metal construction.
- Made in USA.
- Patent Pending.

***Ratchet not included**

Part#
80050 - 1/2
80075 - 3/4
80090 - Kit (1/2” and 3/4”)

The Locknut Wrench

Part#
79150 - 1/2” and 3/4” kit
79200 - 1/2“, 3/4” and 1” kit

Wrench for Locknuts in Tight Places

The Locknut Wrench is designed to end frustration and is the perfect tool for locknut operation. Fitting the majority of UL locknuts, its thin design makes locknuts in tight spaces a thing of the past. Loosen or tighten a locknut by rotating the wrench in the direction of the arrows marked on both ends.

Features:

- Kit includes three different sizes to fit every application: 1/2″, 3/4″, and 1″.
- Fits the majority of UL locknuts.
- Hooked tip latches onto locknut and maximizes turning leverage.
- Offset ends allow access in tight locations.
- Thin design allows easy maneuvering in tight locations while durable steel construction makes it strong enough to get the job done.

ELECTRICIAN'S EDGE PRO

TOOL BELT DESIGNED FOR ELECTRICIANS BY ELECTRICIANS

This tool belt is designed with electricians in mind, combining efficiency and comfort for daily tasks. Its multiple pocket pouches keep tools and accessories within easy reach, eliminating the need to constantly climb up and down ladders. The wide-back design evenly distributes weight, preventing discomfort in your back and hips, while thick, air-channeled padding improves ventilation to keep you cool during long workdays.

Available in sizes 26" - 54".

For Part #'s and size chart see Rack-A-Tiers.com

ELECTRICAL TAPE HOLDER

No other tool belt offers this unique electrician-specific feature.

The quick-pull electrical tape holder easily clips onto most tool belts or accessories. Also sold separately.

Part# 43510

Metal Clips

Reinforces hold on waist along with hook and loop.

Hammer Loop

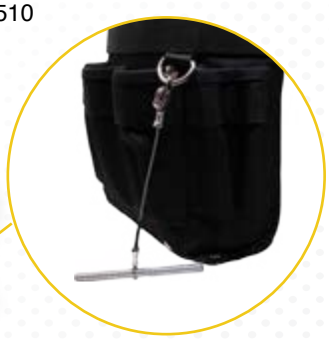
Foam padding with air channels for ventilation help.

Accessories Pocket Pouch

Keep fasteners, wire nuts, and anything else you need within reach.

Tape Measure Clip

Multi-use clip that can hold your tape measure or drill.



Magnetic Strip

Built onto the outside of the pouch.

Tool Pocket Pouch

Holds all your hand-tools without weighing you down.

Molded Air-Channel Suspenders

Electrician's Suspenders

Made with thick foam pads, so they sit comfortably on your shoulders all day. Stay mobile and keep your equipment secure.

Part #43517

Features:

- Leather crossover divider.
- 2" wide adjustable nylon straps.
- Our popular padded suspenders easily clip onto the sturdy metal rings that are built into our tool belts using heavy-duty spring hooks.
- The padded shoulder straps make these the ideal set of suspenders for your tool belt rig.

Phase TAPE MEASURE

Part# 52725

PHASE COLOR-CODED ELECTRICIAN'S TAPE MEASURE

SOLD IN US ONLY

A color-coded tape measure designed so you're never left trying to remember what phase color a certain circuit is. Labeled with black, red, and blue numbers as a quick reference when working with multiple phases.

Features:
- 25' long with an 11.5' standout.
- Magnetic hook end that grips EMT, wood, strut, and pipe.
- Gives you all the information you need at a glance.
- The wide heavy-duty blade has large double-sided measurements. You can read them when measuring overhead, no matter the distance or angle.
- Large and double-sided, the hook can easily grab onto pipe, wood, conduit, or anything else. Plus, there's a built-in magnet that makes measuring from metal simple.

TAPE MEASURE CLIP

Part# 43175

Easily slips on any standard belt to hold your tape measure where you need it for when you need it.

FOLDING UTILITY KNIFE

Part# 47015

STRIP NM WIRE WITH EASE

This compact utility knife will allow you to cut through NM wire, drywall, cardboard, light plastic, carpet and more! Easily folds up to be stored in your pocket or tool belt.

Features:
- Piercing sharp SK5 blade.
- Durable aluminum handle with belt clip.
- Quick change blade mechanism.
- Comfortable oversized thumb pad.
- Includes 1 x folding knife and 1 x SK5 blade.

BUTT POUCHES

POCKET TOOL HOLDERS

These tool pouches hang from your pocket, so they are quick to put on and comfortable to carry.

Available in 2 sizes: Grande and Mini

Features:
- Made of durable ballistic nylon.
- Lightweight to reduce strain.

Mini
Part# 43015

Grande
Part# 43095

SNAP SACK

Part# 43150

CANVAS/LEATHER TOOL APRON

ROUGH-IN APRON WITH LEATHER LINING

Most tool aprons are canvas, which can't handle sharp items like screws and staples—especially in sensitive areas! For comfort, durability, and protection, choose the Snap Sack. Its leather lining keeps you safe from pokes, jabs, and shanks on the job!

Features:
- No strings to tie or untie.
- Clip to your belt loops with the carabineers.
- Leather liner helps protect from damage and poke throughs.

TIE LIPS

Part# 43800

CABLE WRAP HOLDER

CABLE TIE HOLDER THAT HOOKS ONTO YOUR BELT

Spend more time installing and less time picking up your zip ties off the ground. The Tie Lips cable tie holder will snugly hold your cable ties conveniently on your belt.

Features:
- Easy slip-on belt clip.
- Easy and quick access to ties.

Part# 43760

SPECIAL EDITION

CUSTOM WRAPPED HARD HAT

MSA V-GARD CAP-STYLE HARD HATS

Limited time release. The MSA V-Gard Helmet, distinguished by its iconic "V" design, is globally recognized for its comfort, quality, and durability. Since its introduction, MSA has sold over 100 million V-Gard Helmets, making it a staple on the toughest worksites.

Features:
- Meet Type 1 helmet (top impact) as outlined in ANSI Z89.1 1997, Class E and G.
- Polyethylene shell provides superior impact protection.
- Self-adjusting crown straps ensure a comfortable fit.

EXPLODING GARBAGE CAN ULTRA

POP-UP GARBAGE CAN WITH REINFORCED BOTTOM

Part# 51020

New and improved pop-open garbage can. Utilizing the same concept as our Classic Exploding Garbage Can but featuring a reinforced hard bottom for increased durability. Handles drywall, conduit, wire, wood, and anything else you throw at it.

Features:

- Size of 19” x 24” when open.
- Size of 1 1/2” x 24” when collapsed.

EXPLODING GARBAGE CAN CLASSIC

Part# 51000

A customer favorite, the Exploding Garbage Can is a daily essential. This collapsible, heavy-duty trash container features a durable 600D Oxford Polyester fabric and an internal spring that "springs into action."

Features:

- Size of 19” x 24” when open.
- Size of 1 1/2” x 24” when collapsed.

BOOTIES

Part# 47099BB - 6 Pack
Part# 47095.B - Pairs

SLIP-ON WORK BOOT COVERS

Leave a clean impression, not your dirty tracks with these slip resistant plastic booties.

Features:

- Prevents tracking wet mud and messes in client’s homes.
- Fits up to a size 18.
- Waterproof, plastic material.

RACKSY

Part# 66455

KNEE PADS

ELECTRICIAN'S GEL-IMPLANTED KNEE PADS

Provide the softest, thickest support for your knees, protecting them from injury.

Features:

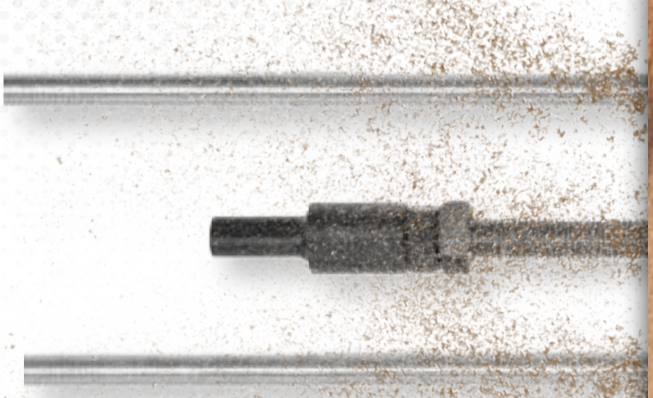
- Hook & Loop with Elastic Straps.

JAVELIN

ALL-IN-ONE DRILL EXTENSION

Never get caught in a drilling extension jam again! This all-in-one extension drill can reach up to 10 feet. It comes with a fully adjustable hole cutter and auger bit extension kit. Just cut a 3/8" – 16 threaded rod to any length you need.

Please Note: Spade, Auger and Hole Saw bit not included in kit.



Part# 95000

RACK-A-TIERS

AUGER BITS

HEAVY-DUTY WOOD AUGER BITS

A durable feed screw and sharp cutting edge make for a smooth and precise drilling experience. The spur on these bits is placed below the cutting edge, allowing you to cut or bend nails. The lowered spur helps prevent your bit from being damaged.

Features:

- Available in 7.5" or 18" length and 7/8", 9/16", 11/16", 3/4" or 1" diameter.
- Quick change hex shank drill bit (7/16").
- Suggest drill RPM: Maximum 600.

See website for part #'s
Rack-A-Tiers.com

Auger File

DON'T THROW AWAY EXPENSIVE AUGER BITS! Save time and money by sharpening your bits from the comfort of your own home.

Features:

- Top teeth for auger's main cutters.
- Side teeth for sharpening tip.

Part# AUFILE

Carbide Tipped Hole Saw Kit

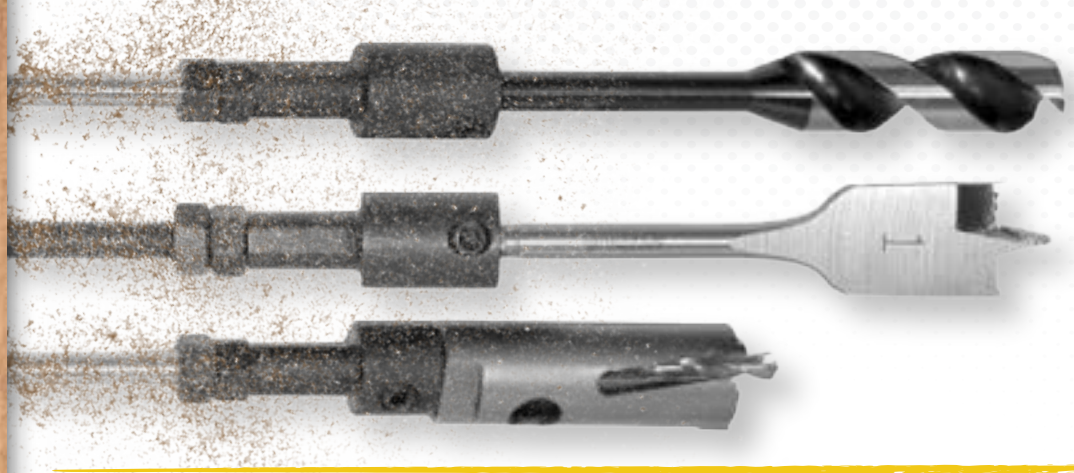
Wood and Drywall Hole Saw Kit

The carbide tipped hole saw kit is perfect for cutting through wood and drywall.

Kit Includes:

- 2 1/2"
- 2"
- 1 3/4"
- 1 3/8"
- 1 1/8"
- 7/8"
- Large and small arbor

Part# 96250



Features:
- Kit includes drill attachment, hole saw attachment, 1/4” driver/drill bit attachment, nuts, and 6” piece of threaded rod.
- Holds driver bits, nut drivers, and drill bits.
- Reaches up to 10 feet long.

RACK-A-TIERS

FLEX BITS

These high quality, self-feeding flex augers are ideal for reaching into wall cavities and drilling through hard-to-reach studs without damaging wall boards.

- Excellent self-feeding design allows for easy work.
- High quality, high-speed steel cuts through studs quickly.

Long John Auger Flex Bits (Wood Cutting)

High quality flexible auger bits designed to easily cut holes in wood.

Material:
Grade 60C High Carbon Steel

See website for part #’s
Rack-A-Tiers.com

Long John Rigid Installer Bit - 1/4” Diameter (Metal/Wood)

Rigid installer bit for wood or metal material

These long bits are specifically designed to be more rigid than your standard flex installer bit. They can be used for cutting both wood and metal material.

Material:
Grade M2 High Speed Steel

Long John Installer Flex Bit - High Speed Steel (Metal/Wood)

Flexible installer bit for wood or metal material

This high-quality flexible installer bit is designed to effortlessly cut holes in wood and metal.

Material:
Grade M2 High Speed Steel

BUMPER BALLS

Part# BB1520 - Bumper Balls 1 1/2 & 2”
Part# BB1520-916 - Bumper Balls + 9/16”x54” Flex Auger Bit
Part# BB1520-38 - Bumper Balls + 3/8”x54” Flex Auger Bit

FLEX BIT CENTERING GUIDE

Bumper Balls slide over your flex auger bit and keep you centered in the wall cavity, ensuring your bit stays exactly where you want it.

Features:
- No more bit walking, nail hitting, wall patching or carpet replacing.
- Fits all 3/16” shaft auger bits.

CO-PILOT HOLE SAW ADAPTER

Part# 91720

Enlarge Existing Holes

Tired of your pilot bit dancing around inside an existing hole you are trying to expand upon? The Co-Pilot bit allows you to stack two hole saws on top of each other to utilize the smaller hole saw as the pilot bit.

Features:

- Enlarge existing holes while keeping the hole saw centered.
- Versatile fit works with all arbors.
- Can be used for wood, plastic, and drywall (limitations set by hole saw).
- Small enough to fit in most hole saw kits.
- Accompany with the dust bowl for a mess free result.
- Made in Canada.

Muti Bit: Step Drill Bit

High-Grade Cobalt Step Bit

Cut holes in steel, sheet metal, thin acrylic sheets, plywood, and plastic laminate with these high-quality step drill bits. Whether you're laying out a panel or enlarging knockouts, Multi Bits will deliver exact, clean results.

Features:

- Drill up to 13 different-sized holes with one bit.
- Made of high-grade cobalt which improves wear resistance, heat resistance, corrosion resistance, and hardness.
- The #MLT1 & #MLT3 models of the Multi Bit have a hex shank to be used with quick-change drills.

Part#

MLT1 - Size: 1/8" - 1/2" 13 Step
MLT3 - Size: 1/4" - 3/4" 9 Step
MLT4 - Size: 3/16" - 7/8" 12 Step
MLT5 - Size: 7/16" - 1 1/8" 12 Step
MLT7 - Size: 1/4" - 1 1/2" 11 Step

Shugi's Slip Discs

Stop Your Hole Saw and Arbor from Binding

In a bind with your hole saw? Get freed up with the Copper Washer. The Copper Washer goes in between your hole saw and the arbor to help reduce binding and make it easy to take them apart once you are done drilling.

Features:

- Available in 1/2", 5/8", and a two-piece kit with both.

Part#

90512 - 1/2" - Five Pack
90558 - 5/8" - Five Pack
90575 - Kit

High Performance

Carbide Tipped Steel Hole Cutters

Carbide Tipped Steel Hole Cutter Kit (4 pc / 8 pc)

Four Piece Kit: (Part# 92KIT4)
Kit Includes: 7/8", 1 1/8", 1 3/8", pilot bit.

Eight Piece Kit: (Part# 92KIT8)
Kit Includes: 7/8", 1 1/8", 1 3/8", 1 3/4", 2", 2 1/2", 2x pilot bits.
*Also sold in individual sizes.

Features:

- Great for cutting mild steel and stainless steel.
- Flange prevents over drilling.
- Split point pilot drill.

Recessed Light Round Hole Saw – 6 3/8"

Drill operated 6 3/8" hole cutter

The 6 3/8″ drill operated hole saw will cut cleaner holes for your recessed lights in less time. Reduce stress on your wrists with this easy-to-use hole saw.

Features:

- Bimetal teeth.
- Holes on side to easily pop out cut drywall.
- Arbor bit included.
- Can be paired with our Driller's Dust Bowl to capture drywall dust.

Part #42690

DRILLER'S DUST BOWL

DUST & DEBRIS CATCHING RUBBER BOWL FOR CUTTING HOLES

A flexible rubber bowl that attaches to your drill to catch all dust and debris. It compresses against ceilings or walls to form a tight seal. Installation is quick and requires no adjustments. Just put the Dust Bowl between your drill chuck and hole saw arbor and start drilling.

Perfect for overhead drilling and recessed light installs, this debris catcher will keep your work sites clean, customers happy, and lungs and eyes healthy.

Features:

- Works with hole saws up to 8".
- Keep your job site clean by catching all dust and debris.
- Also helps keep dust out of your lungs and eyes.
- Slide the Driller's Dust Bowl onto your drill between the chuck and hole saw arbor and start drilling.
- Crafted from heavy rubber built to last.
- Made in the USA.

Part# 48000

DRILLER'S DUST BOWL PRO

DUST COLLECTOR WITH VACUUM ADAPTOR

Part# 48020

The upgraded version of the Driller's Dust Bowl! Now available equipped with a vacuum adaptor.

Features:

- Easy disposal of debris.
- Works with hole saws up to 8".
- Made in the USA.

With Vacuum Adaptor

Part#
90300 - 1 7/8" - 12"
90200 - 1 7/8" - 9"
90199 - Replacement Pilot Bit
90-VT - Carbide Replacement Blades
90-VH - HSS Replacement Blades

HOLE-IN-ONE MULTI-FUNCTION HOLE CUTTER

ADJUSTABLE WIDTH HOLE CUTTER WITH DUST COLLECTING BOWL

Stay clean and safe with this multi-functional, fully adjustable hole saw equipped with a transparent cover that collects dust. Save your lungs! Cutting holes without protection can be hazardous to your health.

Features:

- Includes Carbide Tipped and High-Speed Steel blades.
- Cuts through plywood, MDF, sheetrock, light sheet metal, ceiling tiles, plaster and fiberglass.
- Adjusts to exact hole size needed.
- Dust collector shield.
- Designed to reduce kickback.
- Economical replaceable blades.

Hole-In-One Replacement Blades (2 Pack)

High Speed Steel Blades (Part# 90-VH): Cuts wood, melamine, acrylic sheet, soft acoustic tile and most plastics.
Tungsten Carbide Blades (Part# 90-VT): Cuts sheetrock, MDF, plaster, plywood, fiberglass, Hardie fiber-cement board, & similar materials.

SLOTTER

COMING SOON

Part# 42750

DUAL SIDED MULTI-TOOL BLADE

A must-have multi-tool for cutting drywall. With dual blades cutting two lines 1 ¼" apart and a 7/8" depth, it makes precise slot cutting fast and easy. Perfect for creating slots for wire fishing or other projects, it's a durable and efficient solution for pros and DIYers alike.

Features:

- Cuts two parallel lines 1 1/4" apart for faster results.
- 7/8" cutting depth ensures controlled, accurate slots.
- Perfect for wire fishing and installations.
- Patent Pending.

Q-Bit Enclosure Hole Cutter

Cut Perfect Electrical Box Holes in Seconds

Attaches to any standard oscillating tool, letting you quickly cut perfect single or double gang holes. The patented Osciflex Technology and open-corner blade design prevents wall damage, delivering a clean, precise cut every time.

Features:

- Compatible with 18V, 20V, and corded multi-tools (not 12V) and available in 4 sizes.
- Safe, durable stainless steel design with reinforced rigidity.
- Tooth offset ensures clean, fast cuts without damaging wires.

For Part #'s and Sizing Chart Visit Rack-A-Tiers.com

Multi-Tool Hole Saw

Part# 42675 - 3 3/8"
Part# 42680 - 4 1/4"

Multi-Tool Operated Hole Saw

The world's first round multi-tool hole saw cuts quick, clean holes in drywall, ceiling tiles, and plastic. Available in two sizes, it clips onto your multi-tool for effortless, guide-free cutting—perfect for enlarging holes or installing recessed lights while reducing strain on your wrists and arms.

Features:

- Available in 3 3/8" and 4 ¼".
- Pull your wire stub through the holes in the saw during cutting without causing any damage.
- Reduce the strain on your wrists caused by standard battery drill.
- Less dust, less mess.
- Cuts cleaner holes than a standard hole saw.

SHARP POG

DRILL OPERATED MULTI-TOOL BLADE SHARPENER

Stop throwing away used blades as soon as they start to dull! Use this drill-operated multi-tool blade sharpener to save money and blades. Attach it to your drill and sharpen your blades in minutes with the 15 grinding disks.

Features:

- Includes 15 durable aluminum oxide grinding disks (3" x 1/32" x 3/8").
- For hand drills only; fits standard 3/8" or ½" chucks.
- Saves money and reduces waste by restoring dull blades to like-new condition.
- Long-lasting A46R-rated disks ensure precise, consistent grinding.
- Reduces waste by restoring blades to like-new condition.

Part# H91538

ELECTRICIAN'S KIT

4 OF THE MOST POPULAR STYLE MULTI-TOOL CUTTING BLADES

Bi-metal oscillating blade set for cutting wood, drywall, plastic, nails, and more. Fits most standard oscillating multi-tools. Perfect for tasks like cutting baseboards, drywall holes, and cabinetry.

Features:

- Includes 2 Bi-Metal and 2 Wood/Plastic blades.
- Fast, clean cuts through wood and drywall.
- Ideal for joists, studs, cabinetry, baseboards, and device boxes.
- Minimal dust, disturbance, and perfect for tight spaces.

Part# H4EMK

Japanese Tooth Multi-Tool Blade 32mm - Part# H32CJ1

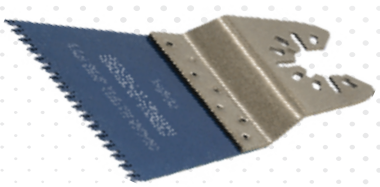
Japanese tooth blade for cutting wood, plastics etc. Universal cutting up to 42mm deep.

Multi-Tool Blade Bi-Metal 44mm - Part# H44BM1

Bi-metal blade for cutting wood, wood with nails & nonferrous metals. Universal cutting up to 42mm deep. Blade Width: 44mm.

Coarse Tooth Multi-Tool Blade 63mm - Part# H63CJ1

Coarse Japanese tooth blade for cutting wood, plastics etc. Universal cutting up to 42mm deep.



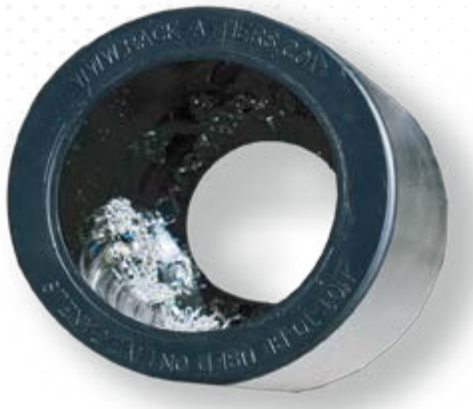
Titanium Alloy Bi-Metal Blade 44mm - Part# H44TN1

Offers durability for cutting wood, nails, and screws. The coating reduces heat, preserving sharpness for longer-lasting performance. Blade Width: 44mm

CHIP CATCHER

MAGNETIC METAL SHAVINGS CATCHER

Clamp to the top or bottom of a metal surface as you drill, and the rare earth magnets will attract and capture the metal shavings. Enjoy having a work area free of shavings and a clean-up you can finish in seconds.



Part #84100

Features:

- Comes with a KO Killer Knockout Filler.
- Can be used while drilling holes up to 3/8" in size.
- The inside diameter of the larger hole is 2".
- Collect and dispose of your metal debris without ever touching it, making your job safer.
- Hot metal chips can cause permanent damage to delicate electrical components.

NOT TO BE USED ON LIVE PANELS

DIRT BAG

Part #84000

MAGNETIC METAL SHAVING CATCHER BAG FOR DRILLING

The Dirt Bag clings to metal surfaces, using rare earth magnets to collect metal shavings in a fiberglass pouch. It prevents debris from entering electrical panels and features a removable magnet for easy disposal. Just slide the magnet out and dump the shavings.

Features:

- Catch every metal shaving before it gets lost in your electrical panel.
- Spend more time working instead of cleaning.
- Metal chips can cause permanent damage to delicate electrical components.
- Prevent metal shavings from landing in hard-to-reach areas and causing damage.

NOT TO BE USED ON LIVE PANELS

THE TRADE SHADE

Magnetic Umbrella Holder

COMING SOON

An umbrella holder that keeps you and your tools covered in rain, hail, or blistering sun. Attaches easily and secures your umbrella in any position, sheltering you from the elements and allowing you to have both hands free.

Features:
- Lightweight, and sets up in seconds.
- Strong, paint-safe magnet secures without scratching surfaces.

*Holder and Umbrella sold separately.

Part# TSB100

Part# TSB143

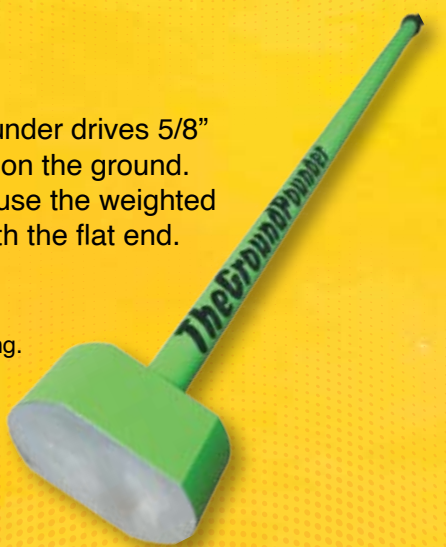
The Ground Pounder

Part# 67150

Ground Rod Driver

Tired of hydraulic hoses? The Ground Pounder drives 5/8" and 1/2" ground rods safely with both feet on the ground. Slide the handle over the rod to steady it, use the weighted end to drive it down, then flip it to finish with the flat end.

Features:
- Weight: 18 lbs.
- For use on 5/8" and 1/2" Ground Rods. 43 3/4" long.
- Drive flush or below grade.
- No ladder, no kneeling.
- One person operation.
- Made in USA.



Sluggo-Ox

Part# 67119

Ground Rod Driving Tool

The ultimate ground rod driving tool. Just one piece, and incredibly strong, it delivers the kind of power and strength you need to easily install ground rods, rebar, and other metal objects.

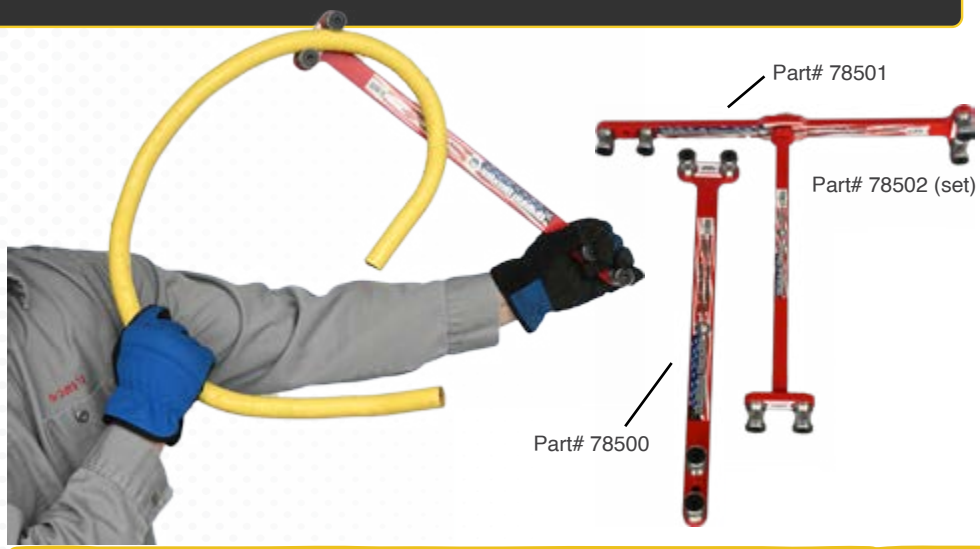
Features:
- Incredibly strong: made of 3" hot-rolled, heat-treated, hardened steel.
- 3 1/2" bore to accept 3/4" and 5/8" ground rods.
- 80% more striking surface.
- One piece, lightweight (7 lbs).
- Yellow zinc chromate surface deters rust.
- Made in USA.

WIRE BENDING MADE EASY

MADE IN USA

The Bulldog Bender

Used for bending wires in panels, disconnects, LB's and wire-ways. The Bulldog Bender will prove to be a valuable tool to add to your arsenal. As with any specialty tool, with practice you will learn how to use the Bender to its full bending potential. Designed and manufactured by an electrician for electricians.



Bends up to 500 mcm

78500 - Bulldog Original
78501 - Bulldog Pro with Adaptor
78502 - Bulldog 3 Piece Set (original & Pro)

Bends up to 750 MCM

78600 - Bulldog Big Daddy 3 Piece Set

Bends up to 4/0

78400 - Bulldog Pup
78402 - Bulldog 'Pup Pro' 2 piece set
78403 - Bulldog Pup 3 piece set

Bend-All

Bend Large Wire in the Tightest Locations

A cable bender that attaches to a ½" ratchet for extra leverage, easily bending stiff wires in tight spaces without damage. The Sr. can bend up to 600 MCM with an increased surface area for extra leverage. The Original can bend up to 500 MCM and takes the struggle out of working in a small meter base, LB fitting or distribution panel.

COMING SOON

Bend-All Sr.
Bends up to 600 MCM
Part# 77460

Bend-All Original
Bends up to 500 MCM
Part# 77455

Features:

- Made with Aircraft Grade Aluminum.
- Made in Canada.

HOPPY BENDER

EASIEST, FASTEST & MOST ACCUARATE PIPE BENDER ON THE MARKET

The most innovative and smartest pipe bender on the market. We have revolutionized the way electricians bend pipe - it has never been easier or faster than it is now with the Hoppy Bender. Even the most complicated bends are made As Easy As 1,2,3. Offsets, 3 & 4-point saddles, 90-degree bends always perfect and done in a fraction of the time!

EASY AS 1,2,3!

The Hoppy Bender is hands down the smartest & most innovative bender on the market. We have revolutionized the way electricians bend pipe - it has never been easier or faster than it is now with the Hoppy Bender.

STEP ONE

Read table and mark pipe

STEP TWO

Set Stop

STEP THREE

Part#
57050 - 1/2" Hoppy Bender
57075 - 3/4" Hoppy Bender
57002 - Replacement Handle
57005 - Replacement Thumb Screw

57050LAB -1/2" Replacement Label
57057 - 1/2" Replacement Swing-Stop
57075LAB - 3/4" Replacement Label
57077 - 3/4" Replacement Swing-Stop

Features:
- A “Stop” attached to the Bender head used to create exact and repeatable bends every time.
- Simplified “Multipliers” engraved into the bender for placing the “Stop” prior to making offsets and four-point saddles.
- Special 22.5 and 45-degree marks engraved into the bender for placement of conduit bend marks as well as standard degree marks for stop placement, used together for bending three-point saddles without reversing the conduit in the shoe.
- Handy reference charts attached to the handle for locating bend marks.

Part# #57090

KICK WEDGE

Level Out Your 90-Degree Kicks

A lightweight, affordable tool that levels your 90-degree conduit bends before adding a kick or second bend. It solves the problem of uneven surfaces or bender placement raising your 90 differently each time, ensuring consistent results every time.

Features:
- Compatible with: 1/2", 3/4", 1" and 1-1/4" conduit sizes.

SKYBENDER
LIFT MOUNTED EMT BENDER

The FIRST & only lift-mounted EMT conduit bender.

Part# 57123

No more trips up and down the lift! The Skybender attaches to scissor or aerial lifts, letting you bend conduit around it instead of using a traditional foot bender. Mount it on the railing to avoid trip hazards and work faster. Lock in EMT with the retaining block for precise custom bends twice as fast as a standard bender.

Features:

- Bends EMT sizes ½″, ¾″, and 1″ with common 10°, 22°, 30°, 45°, 60° and 90° angle demarcations.
- Patented design attaches to any scissor or boom lift with square or rectangular guardrails using 2 bolts and a securing pin.
- Weight: 46 Lbs.
- Made in USA

Work Efficiently Alone

Bend Perfect 90s or offsets on a Lift

Ream + Straighten Pipe

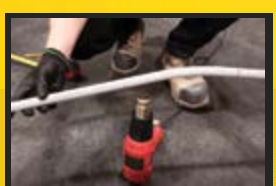
Part# 59130

BENDER'S FRIEND

Lightweight, portable 90 degree PVC bending template

The Bender's friend is an easy to use template for bending perfect 90's in your PVC. To be paired with a heat source, the Bender's Friend will allow you to make kink-free bends every time. Works with 3 sizes 1/2″, 3/4″ and 1″.

STEP ONE



Prep your pipe with a heat source such as heat gun or blanket to make it soft and bendable.

STEP TWO

Bend your soft pipe to the desired shape and place it in the correct size channel of the Bender's Friend.

STEP THREE

Let your pipe rest in the Bender's Friend until it cools and becomes solid again.

Features:

- Handles 3 sizes: 1/2", 3/4" and 1"
- No more kinks.
- Made in the USA.
- Reduce your PVC inventory.
- Does compound bends.
- Perfect match for any PVC heater.

Pipe Viper

See Website for Part#'s and Sizes

Cold PVC Bend without compromising the conduit.

Cold bend Schedule 40 PVC pipe without your pipe collapsing or fracturing. Faster and easier than cutting and gluing factory fittings. NO HEAT REQUIRED! Simply insert the spring into the pipe and bend across your knee.

Features:

- To be used for Schedule 40 PVC. Not to be used for Schedule 80.
- No heat guns needed for 1/2″ and 3/4″ PVC. Bend over your knee!
- Use fewer PVC fittings to save time and money.
- Length of 1/2″, 3/4″, 1″ Spring: 27″
- Length of 1-1/4″, 1-1/2″, 2″ Spring: 36″
- Length of 3″ & 4″ Spring: 33″

Heat Tank

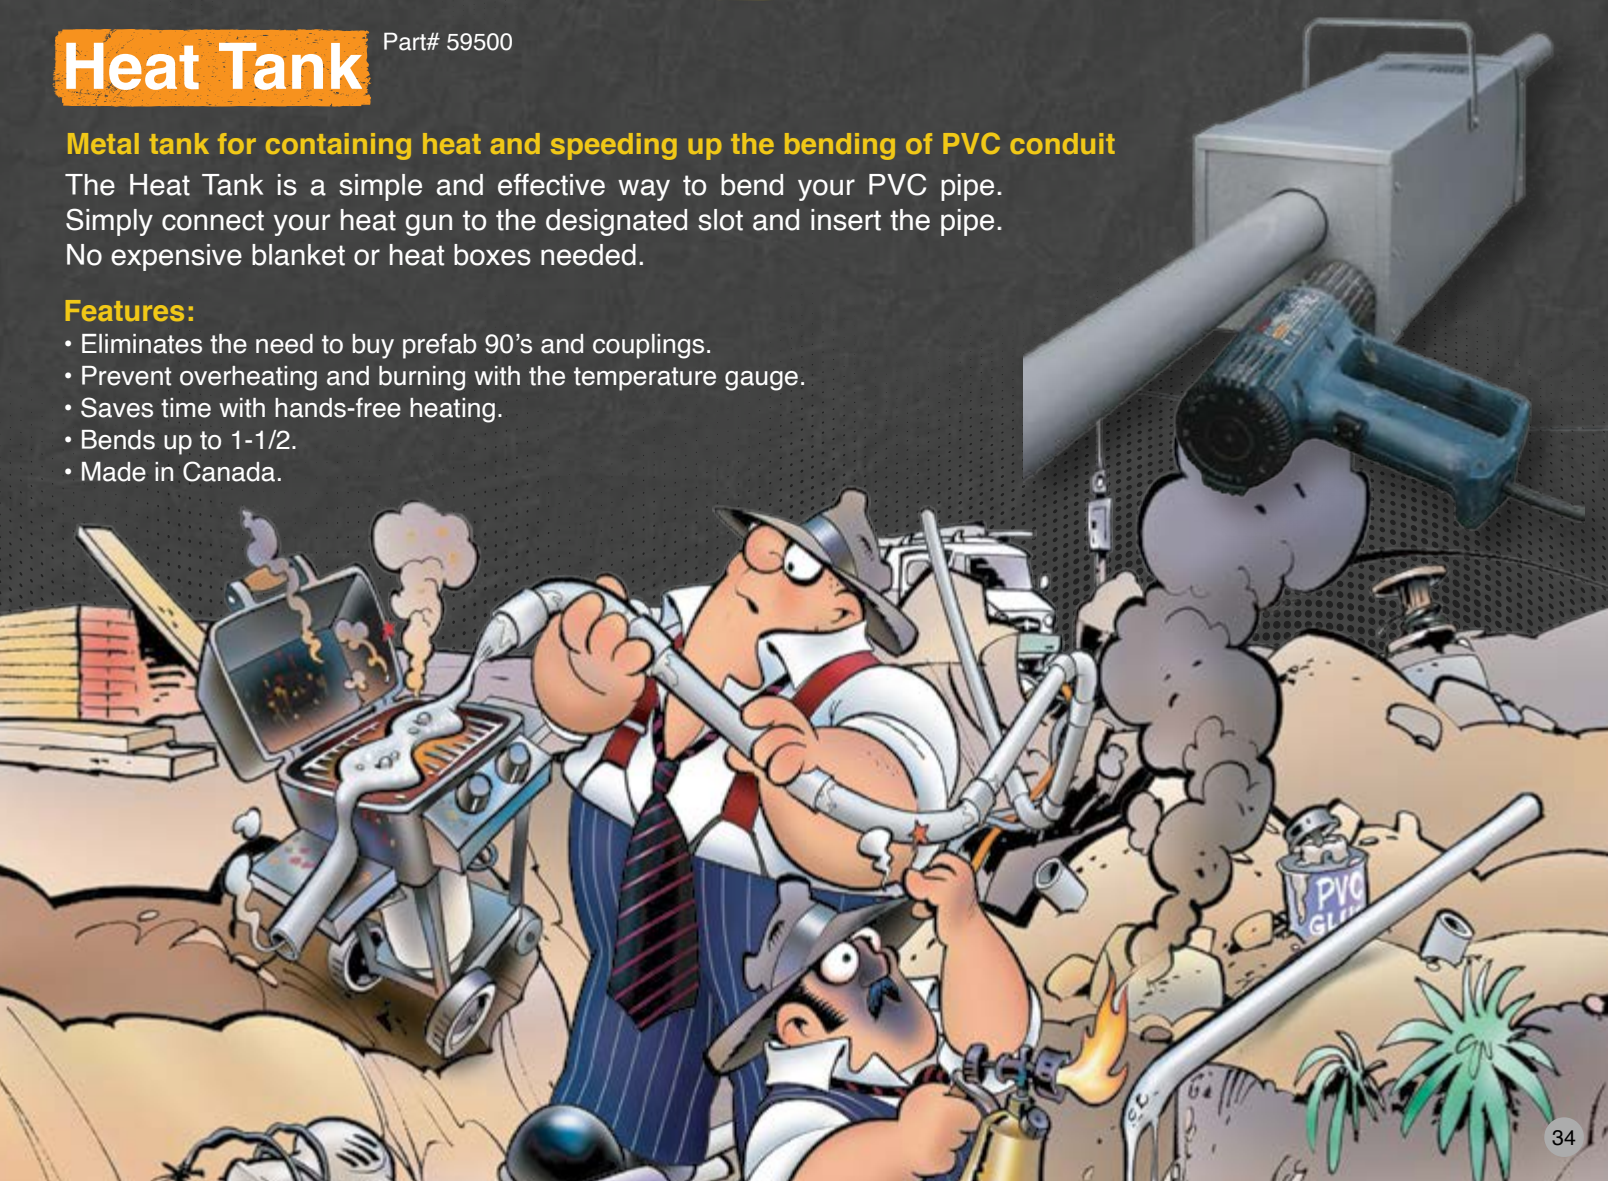
Part# 59500

Metal tank for containing heat and speeding up the bending of PVC conduit

The Heat Tank is a simple and effective way to bend your PVC pipe. Simply connect your heat gun to the designated slot and insert the pipe. No expensive blanket or heat boxes needed.

Features:

- Eliminates the need to buy prefab 90's and couplings.
- Prevent overheating and burning with the temperature gauge.
- Saves time with hands-free heating.
- Bends up to 1-1/2.
- Made in Canada.



SLAMMERS

Conduit Spacers and Caps for Concrete Pours

Skip duct tape, ties, and wood wedges—Slammers Spacers and Caps are the ultimate solution for setting up and protecting conduit systems for 4-square box knockouts. Achieve the cleanest installs with ease!

Features:

- Made from durable ABS plastic to withstand elements.
- Made in USA.
- Available in 3/4” and 1” sizes.

*For Part #’s visit Rack-A-Tiers.com

Conduit Cap

Conduit Spacer

Conduit Spacer with Support Hole

CAP-IT

Conduit End Caps

Colored conduit end caps are designed to effectively keep dirt, rocks, rodents, and other debris out of conduits. By using different colors, these caps not only protect the conduits but also help organize various wiring systems within projects, making it easier to identify and manage them.

Features:

- Easy to put on and take off and reusable.
- Faster to use than duct tape.
- Organizes different wiring systems.
- Keeps conduit clean of debris.
- Compatible with a wrench if needed.
- Provides a uniform appearance when rising out of the ground for a clean professional look.
- Made in USA.

PENGUIN PULLER

BULLET-HEAD WIRE ATTACHMENT PULLING TOOL

Part# 69705 - Penguin Puller Junior
Part# 69700 - Penguin Puller Senior

The Penguin Puller Sr. and Jr. make pulling large cables effortless, especially for underground feeds. Their sleek, bullet shape ensures smooth pulls without tape or crimps. With four slots and Allen-key set screws, they deliver up to 4,000 lbs. of pull strength.

Features:

- 4,000 lbs. max pull strength.
- 4 wire slots for secure cable attachment.
- Penguin Puller Sr.: Handles 3/0 to 350 MCM copper/aluminum (2-1/2″ pipe or larger).
- Penguin Puller Jr.: Handles 2/0 to 4/0 copper/aluminum (2″ pipe or larger).
- Made in USA.

FLUSH PIN SHACKLE

Part #69710

Flush Pin Shackle to be used with Penguin Pullers

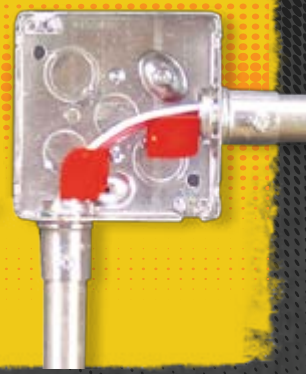
- Stainless Steel
- Four Ton g- Break Load
- 0.5in. Pin Size

THE ALL AMERICAN PULL BUDDY

SHOEHORNS FOR YOUR WIRE

Part#
42000 - Multi-Pack (6 pack / 2 of each)
42050 -1/2" Blue (10 Pack)
42075 - 3/4" Red (10 Pack)
42100 - 1" White (10 Pack)

Protect your wire from damage and make pulling between two pipes through a conduit box easy! Insert the All American Pull budy into the conduit, pull your wire, and remove it when done. Lightweight, durable, and available in various colors for easy spotting, it's perfect for solo electricians looking to save time and effort.



Features:
- Available in 3 sizes: 1/2", 3/4", and 1", sold in packs of 10.
- Multi 6-pack includes 2 of each size for versatile use.
- Bright colors for easy identification in any environment.
- Reusable for multiple projects.
- Made in USA.

LB WIRE GUIDE

Part# 42200

LB WIRE GUIDE WIRE GUIDE FOR 2" LB'S

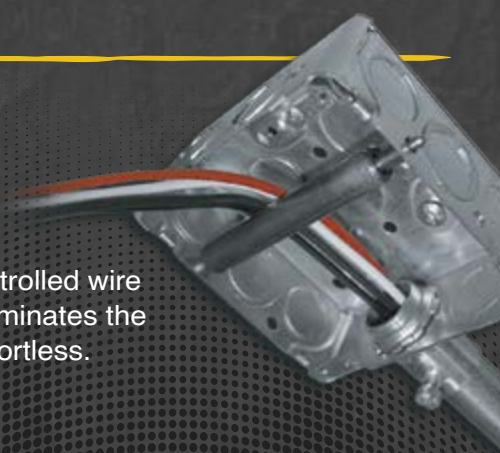
The LB Wire Guide makes pulling wire through 2" PVC LB fittings effortless, protecting your wire and hands. It turns two-person jobs, like installing 200 Amp services (3/0 wire), into a quick solo task - even in tight spaces. Save time, avoid frustration, and skip the shredded knuckles with this game-changing tool every electrician needs.

Features:
- 2" PVC LBs and most 2" metal LBs with adaptability.
- Prevents cable abrasion for smooth, damage-free feeding through fittings.
- Allows solo wire pulling, perfect for tight spaces and quick installations.
- Double-ended design fits either end of the conduit body.
- Protects hands from scrapes and injuries during wire feeding.

PullLee

Part# 41100

SOLD IN US ONLY



4X4 STEEL BOX WIRE PULLING GUIDE

This slim, durable steel roller ensures smooth, controlled wire pulling by guiding cables at the correct angle. It eliminates the need for a second person, making wire feeding effortless.

Features:
- Spring loaded tips keep it locked in place.
- Stainless steel design for maximum strength.

Part# 40002

WIRE VORTEX PLUS

WIRE PULLING GUIDE FOR 4X4 AND 4 11/16 BOXES

Need an extra pair of hands? This wire pulling guide fits on a standard 4" or 4 11/16" box and saves you time when pulling wire. It guides wire smoothly to prevent tangling and wire damage when feeding through a junction or pull box.

Features:
- Prevents tangling and protects wire during pulls.
- Pull wire in all 4 directions for standard or deep boxes.
- Fits 4x4 and 4 11/16" boxes.
- Made of durable, impact-resistant plastic.

Flex Flyer

Part#
69050 - Flex Flyer 1/2"
69075 - Flex Flyer 3/4"

Easily Fix and Improve Broken Fish Tape Ends

The Flex Flyer simplifies navigating fish tape through conduit with a quick-change swivel head that attaches in 20 seconds using two pliers. Its loop design glides smoothly through all types of conduit, including flex, and standard 1/4”-28 threads allow for various leader attachments.

Features:

- Installs in under 20 seconds with two pliers, no torch needed.
- Smoothly navigates conduit runs with loop technology.
- Glides through all types of conduit, including flex.
- Loops enable easy snagging from the other end of the conduit.
- Standard 1/4”-28 threads support various leader attachments.

Sting Ray

Part# 40400

Wire pulling guide for ceiling grids

Simplify pulling wire through drop ceilings safely and efficiently. Snap this into a corner, use its full-length slit for easy wire management, and remove it by pulling the tail and sliding it off the grid.

Features:

- Protects expensive and fragile cables.
- Protects ceiling from twisting and marring.
- Smooth interior creates an almost frictionless chase.
- Middle slit allows for easy cable removal or addition at any time.
- Fits 1” standard ceiling grid.

Snap in place & pull your wire

SNATCH STRAPS

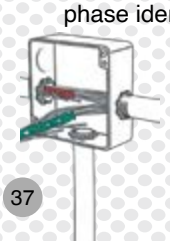
Wire Pulling Straps

Part #69455

Use the Snatch Strap for fast attachment on conduit pulls. No stripping or taping required!

Features:

- Pull more conductors with less effort.
- Can be chained together.
- Color coded for easy circuit and phase identification.



MFG Note: Snatch Strap handles #22 – #12 AWG. If additional wires are required simply add additional straps.

The JIMBO

WIRE PULLING BRACKET

Part #40200

A bracket that prevents cable snags and damage over sharp edges or ceiling grids. Link multiple brackets to create a raceway, improving efficiency and protecting wires, even when working solo.

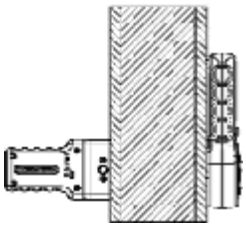
Features:

- Set up multiple brackets making a temporary cable raceway to avoid catching or snags.
- Pull hard around corners and through structural steel.
- Consolidate cables to the best angle for ease of pulling.

MAGNESPOT

Reference point locator that gives users complete self-assurance before drilling.

Hold the receiver on the other side of the wall and point it in the general direction of the transmitter. The red LED arrows on the Receiver will indicate which direction to move. When all 4 Arrows illuminate, the Transmitter and Receiver are lined up within 0.5 inches.



Senses up to 30" through concrete & 60" wood frame wall.

Part# 42900

MAGNEPULL

Extremely powerful, yet delicate, magnetic wire snake for fishing wire through walls.

The Magnepull kit includes a strong rare earth magnetic roller with a smooth surface and rare earth magnetic bullet leader.

Features:

- Hand roller with powerful magnet and smooth finish to avoid damaging walls.
- 6″ jack chain included.
- Flexible leader with magnet head.
- Also makes a great stud finder.

Part# 42800

LASERLINE

REDUCE EFFORT IMPROVE PRODUCTION CUT LABOR EXPENSE

Part #
83000 - Laserline Kit
83001 - Replacement Line 2-1200ft
83003 - Dart 3 Pack

Shoot a Line 200 Feet!

Tired of wiggling through a crawl space just to drag your wire to the other end? Fire the Laserline, attach your wire, then walk around and pull it across while standing. It's that easy! This CO2 powered gun shoots a foam dart with a line attached to it up to 200ft.

Mfg Note

- The Laserline Kit includes 1 gun, 2 spools of line (1200 ft each), 2 darts and 2 generic CO2 cartridges.

Features:

- Accurately install a pull line up to 200ft.
- Cuts labor costs and improves production.
- Ability to span over heavy and hard to move objects found in many commercial structures.
- Replacement line and darts available.

PIPE SITE

Part# 86350

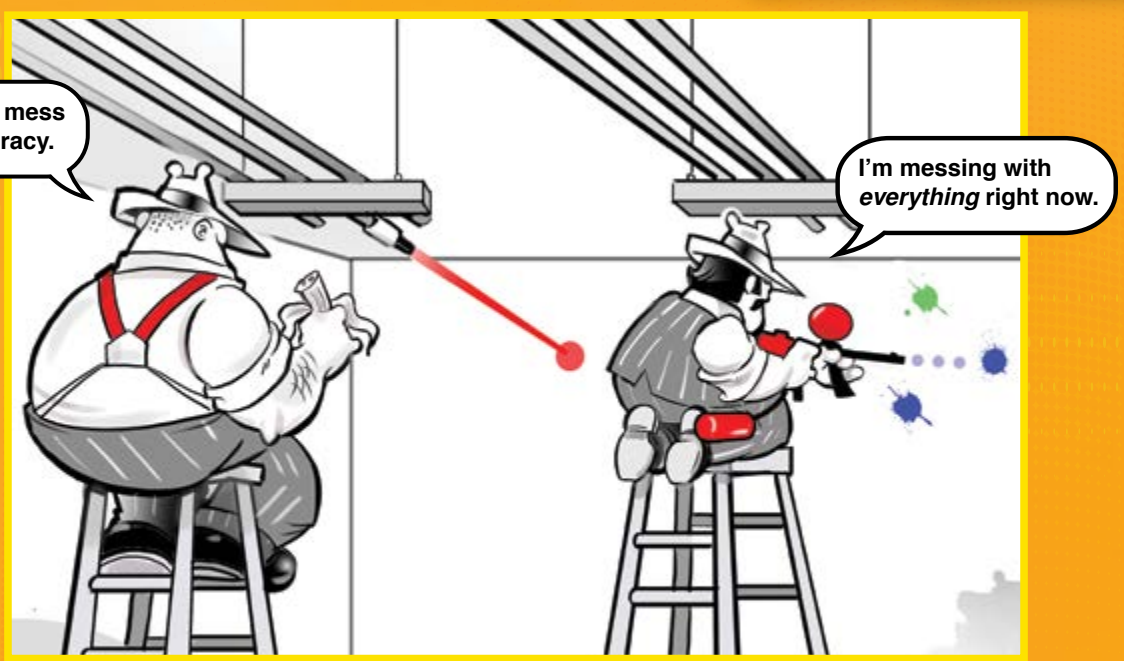
CONDUIT LASER TOOL

The Pipe Site is a compact and lightweight laser tool designed to simplify conduit alignment. Plug it into the end of your conduit, and it projects a laser dot to show exactly where the conduit is pointing. Perfect for wall penetrations, panel terminations, and precise conduit bends, it eliminates the need for tape measures and minimizes errors.

Disclaimer: If your conduit is not perfectly aligned it will affect your laser measurement.

Features:

- Small, simple, and USB rechargeable.
- Projects a laser dot for precise alignment.
- Fits 1/2", 3/4", and 1" EMT out of the box.
- Durable plastic sleeve and metal laser housing.



STRUGGLING TO FIND CABLES IN TIGHT SPACES?

THE FERRET LETS YOU SEE AND REACH WHERE YOU CANT

ACCESSORIES

FERRET WRISTBAND

PART #99306

FERRET STICK PART #99304

CLICK 'N' FISH

#GCF824
5/32" x 3' Kit (24' total)
#GCF530
5/32" x 6' Kit (30' total)

Push Connect Fish Sticks

Tired of fumbling with fishing tools and connectors? The Click 'N' Fish makes setup and storage quick with its push-connect system. Its glow-in-the-dark material improves visibility in low-light conditions, and included accessories like hooks and adapters handle a variety of fishing tasks with ease.

Features:

- Quick push-connect setup and storage.
- Glow material enhances visibility in low light.
- Includes: 8-32 male/female adapters, bullet head, flex cable head, wire loop head, big hook, and small hook—everything you need for various fishing tasks.

Tent Pole Fish Stick

Part #TPFS75

Foldable Fish Stick

The Tent Pole combines all the great features of a normal fish stick but allows you to fold it up into a portable, convenient size for easy storage and transport. Each stick is roped together like a standard type tent pole. Featuring five 15" long sticks that come together to give you 75" of total length.

Features:

- Hook and bullet head accessories.
- Standard 8-32 threads.
- 5 - 15" sticks roped together for easy storage.

THE FERRET

4m - #EP04M
8m - #EP08M

LEADER WHEEL ACCESSORY

The Ferret is a game-changer for wire fishing, effortlessly tackling challenges like fishing wires through insulation or tight spaces. A tough, flexible wire fishing tool designed for accuracy and durability. Its guide wheel glides over obstacles, and its fiberglass-reinforced body handles tight spaces and impacts with ease. A steel hook accessory makes grabbing cables fast and efficient, perfect for solo jobs!

Features:
- Available in 4 m (13 ft) and 8 m (26 ft) lengths.
- Made of durable fiberglass-reinforced polymer.
- Long enough to fish wires up two-story walls (8 m model).
- Versatile for horizontal, vertical, and angled wiring.

FIBER RODDERS

1/2"

#FS12657

Ideal for big wire fishing, with threaded ends for four attachments and a cantilevered frame for better leverage and balance.

Features:
- Fiberglass-reinforced plastic with a durable coating
- Rubber wheels for smooth, reliable transport

3/16"

#FS316300

Fiberglass-reinforced fish tape with a durable, low-friction coating. Features a lightweight, anti-corrosion steel frame.

Features:
- Brass ends with embedded pins hold up to 300 lbs.
- Adjustable knob for wheel speed control.
- Threaded brass ends fit pulling eye or flexible guide leads.
- Made of fiberglass-reinforced plastic with a 0.16” diameter.

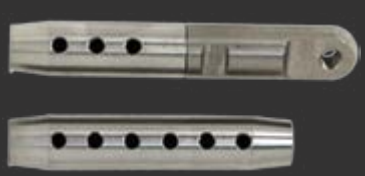
1/4"

(FS14600, FS14500, FS14400, FS14300)

Can handle up to 600 ft., tackles big jobs with threaded ends for four attachments and a balanced cantilevered frame for easy transport.

Features:
- Fiberglass-reinforced plastic with low-friction coating for smooth pulls
- 1430 lbs. breaking strength
- Available in various lengths
- Brass pulling eye with large eyelet for easy access
- Lightweight, durable steel frame with anti-corrosion treatment
- Adjustable knob for controlling wheel rotation speed

Fibre Rodders Splice Kit

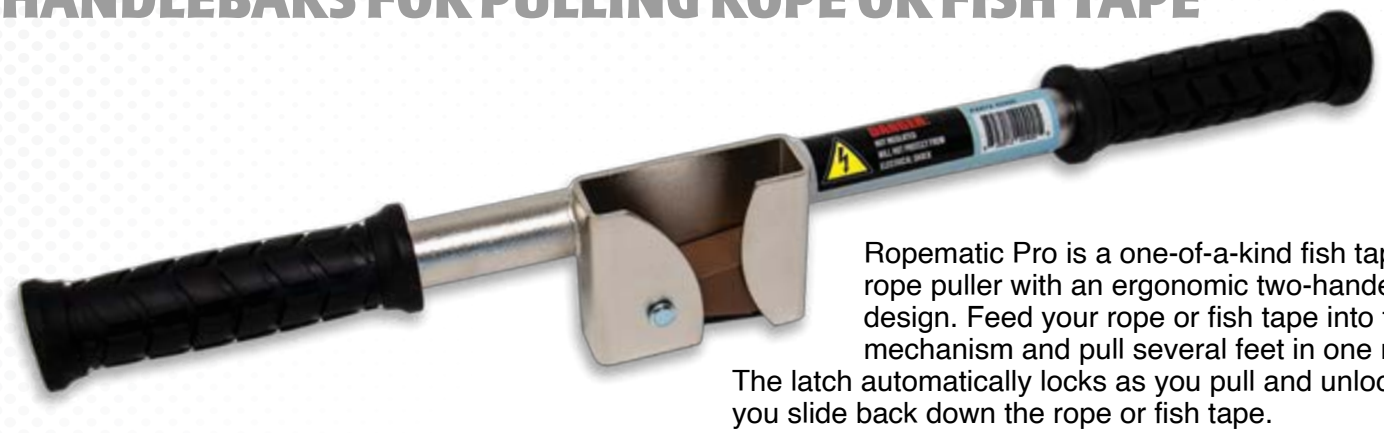


FS12.END - End Repair for 1/2" Fibersnake
FS12.EYE - Eye-Loop for 1/2" Fibersnake
FS12.SPL - Splice Repair for 1/2" Fibersnake
FS14.END - End Repair for 1/4" Fibersnake
FS14.SPL - Splice Repair for 1/4" Fibersnake

ROPEMATIC PRO

Part# 42400

HANDLEBARS FOR PULLING ROPE OR FISH TAPE



Ropematic Pro is a one-of-a-kind fish tape and rope puller with an ergonomic two-handed design. Feed your rope or fish tape into the mechanism and pull several feet in one motion! The latch automatically locks as you pull and unlocks as you slide back down the rope or fish tape.

Features:

- Works with fish tape, mule tape, and pulling rope.
- Can pull most ropes and fish tapes (recommended nylon and poly rope sizes 3/8" – 5/8").
- Ergonomic rubber grips to reduce strain on your hands.
- On average, you will save 30 minutes on a 75' wire pull.
- Pull several feet of rope or fish tape in one motion.
- Automatic locking latch works for both vertical and horizontal wire pulling.
- Heavy-duty steel frame and ergonomic cushioned rubber hand grips.

Using a Ropematic Pro instead of other makeshift options like pliers, 2×4's or conduit is faster, safer, and easier.

PIPER

Part #99040

TRACK CONDUIT WITH EASE

The Piper emits a loud noise through pipe, allowing you to quickly locate the other end.

Features:

- Tracks conduits in minutes.
- Works in unobstructed ½" to 8" EMT, rigid, or plastic pipes to well over 300 feet.
- Find pipe ends that would be otherwise impossible to locate.

EFERGY ELITE *Classic* Part# EF003

MONITORING SYSTEM THAT WIRELESSLY MEASURES ENERGY USAGE

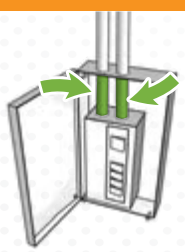
The Efergy Elite Classic wirelessly tracks energy usage and updates the monitor every 10 seconds, making it easy to see where energy is being used in real-time.

No need for a separate meter base to monitor multiple suites—simply install and start tracking instantly.

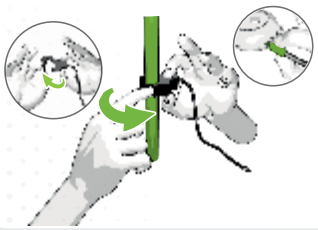
With its memory function, you can view energy usage for today, yesterday, the past week, or month. The monitor also displays daily averages, helping you identify patterns and reduce usage by adjusting your habits.

Energy Monitors: How to Install

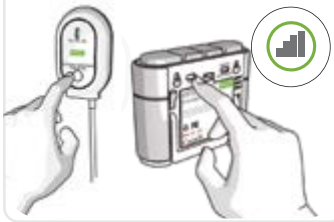
1 LOCATE YOUR LIVE FEED WIRE



2 ATTACH THE SENSOR



3 LINK THE TRANSMITTER



4 MONITOR - REDUCE - SAVE

Features:

- Includes wireless display, transmitter, and 2x 200A split-core sensors.
- Ideal for sub-panels.
- Add extra CT for 3-phase (Part# EF012).
- Portable display shows real-time and historical energy data (cost, CO2, kWh).
- Features daily averages, 24-month data storage, and audio alerts for max consumption.

Part# 32050

POKE-E

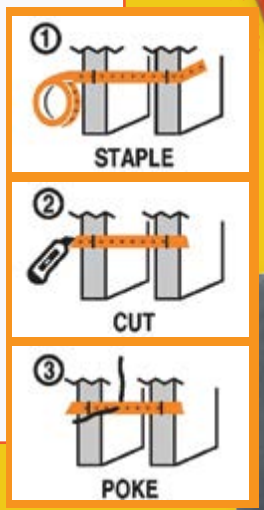
SECURE WIRES BEFORE DRYWALL

A perforated strip designed by an electrician to prevent wires from being buried in walls. Installed during the rough-in stage, it holds cables exactly where you want them in both residential and commercial projects.

*Only intended for use with Class 2 wiring only.

Features:

- Each roll includes 12” of strap
- The Poke-E is 1-7/8 in. wide
- Made in USA
- Holds up to a 1/2 in. diameter cable
- Patent Pending



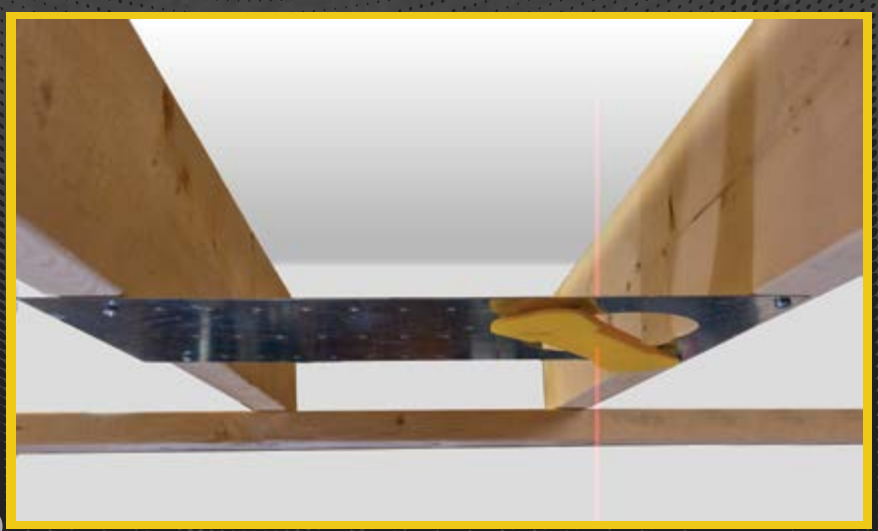
Laser Buddy

Part# 86300

The Easiest Way to Center Recessed Light Plates

Magnetically attaches to recessed light rough-in plates, aligning perfectly with your plumb laser for precise light positioning—no measuring, no guesswork.

Quick to attach, easy to remove, and highly reliable, it saves hours on jobs of any size, from single-room upgrades to large-scale installations.



Features:

- Automatically aligns and works seamlessly with multiple rough-in plate sizes (6”, 4”, and 3”).
- Strong magnets hold securely without leaving adhesive residue.
- Lightweight design fits into your pocket or tool pouch.

GPS LIGHTLOCK ASTRONOMICAL TIMERS

GPS LightLock handles all programming and maintenance automatically. It sets the date, time, and location, programs switch times, and self-recovers from power outages while staying synced to the GPS atomic clock.

Designed to eliminate costly service trips, it offers custom programming stored permanently, requires no batteries, and works without user input. Reliable, cost-effective, and hassle-free, GPS LightLock is the ultimate solution for precise, maintenance-free lighting control.

GPS LightLock Wire-In 120-277VAC (#85-GPS-MV-W)
Our best-selling model includes a twist-lock astronomical timer and a wire-in twist-lock socket with a 1/2" standard female thread. A direct replacement for all wire-in photocells and programmable timers.
Part# 85-GPS-MV-W

GPS LightLock - Twist-Lock 120-277VAC (#85-GPS-MV-T)
Installs in under a minute! The only fully automatic astronomical timer switches lights dusk-to-dawn worldwide. Plug-and-play, never needs programming, self-recovers from outages, and replaces twist-lock photocells directly.
Part# 85-GPS-MV-T

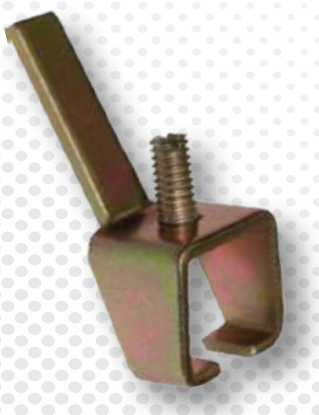
Part #99050 (12 Pack)

TEMP-IT

TEMPORARY LIGHT SOCKET

Provides instant temporary lighting for LED recessed can installations during construction. It eliminates the need for costly LED trims, offering an efficient and affordable solution.

Features:
- Fits in most residential LED recessed cans.
- Use A-19 Medium Base LED light bulb only.
- Sold in boxes of 4 or 12 (lamps not included).



Breaker Lok

Part# 75000
(5 Pack)

Secure Breaker Locking Solution

Securely locks breakers in the ON or OFF position. Reusable and corrosion-resistant, it's a durable and reliable solution for breaker management.

Features:
- Fits most breakers and toggle switches.
- Reusable, corrosion-resistant, and secure with a set screw and rigid leg.

MARK MY WIRE Wire Marking System

Wire Marking Felt Pen

A high-density, quick-drying wire marker that makes permanently re-coloring wires simple and fast. With just one pass you can completely and evenly coat wires sized #14 to #10 using the hole. For wires larger than #10 you can use the notched tip. Whether you are re-identifying white wires on NM cables or travelers on 3-way lighting circuits, this marker is the perfect option for changing the color of your wires. Mark My Wire is available in black, blue, red, and white or a kit of all four colors.

Kit: #52484
Black: #52480BK
4 Pack: #52480BK.P4
Blue: #52480BL
4 Pack: #52480BL.P4
Red: #52480RD
4 Pack: #52480RD.P4
White: #52480WT

Features:

- Thread wire through the tip for quick, smooth marking—no more phase taping.
- Hole and notch system ensures clean, precise results without messy fingers or wires.
- Compact design fits easily in your tool pouch or bag for on-the-go wire marking.

The Original Electrical Reference Books

Everyone Needs an Ugly's On the Job Reference

For over 35 years, Ugly's Electrical References has been the most instantly recognizable reference in the electrical and construction trades, providing customers with quick, accurate answers in a unique, one-volume "tool-box library" format. Ugly's Professional Reference series provides a complete line of pocket electrical references designed to increase productivity, keep jobs up-to-Code, and maintain workplace safety.

Quick, Accurate Answers

Ugly's Electrical References present a succinct portrait of the most pertinent information all electricians need at their fingertips in an easy-to-read and easy-to-access format.

Convenient Format

Ugly's pocket-size guides are designed to be used as an on-the-job reference. These handy guides contain critical electrical information so you can be sure your work is completed safely and correctly every time.

Current, Trusted Content

The Ugly's Professional Reference series is regularly updated to comply with the latest standards and regulations of the National Electrical Code® (NEC).

SOLD IN US ONLY

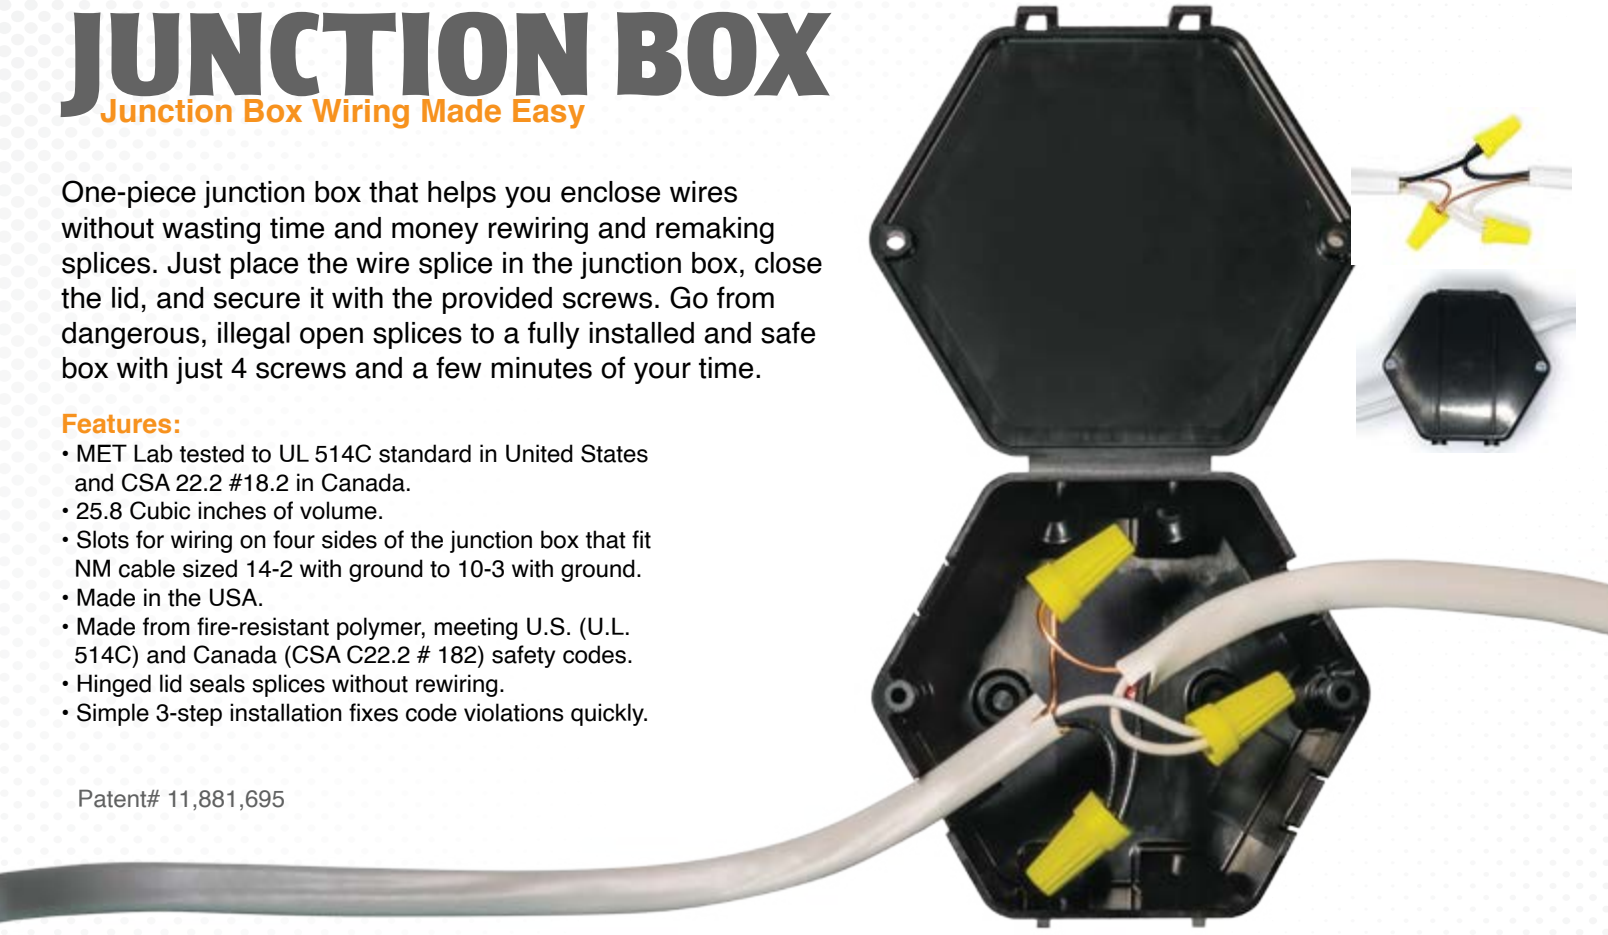
OPEN SPLICE JUNCTION BOX

MADE IN USA

Part# JB400
Pack of 5 JB400.P5

Junction Box Wiring Made Easy

One-piece junction box that helps you enclose wires without wasting time and money rewiring and remaking splices. Just place the wire splice in the junction box, close the lid, and secure it with the provided screws. Go from dangerous, illegal open splices to a fully installed and safe box with just 4 screws and a few minutes of your time.



Features:

- MET Lab tested to UL 514C standard in United States and CSA 22.2 #18.2 in Canada.
- 25.8 Cubic inches of volume.
- Slots for wiring on four sides of the junction box that fit NM cable sized 14-2 with ground to 10-3 with ground.
- Made in the USA.
- Made from fire-resistant polymer, meeting U.S. (U.L. 514C) and Canada (CSA C22.2 # 182) safety codes.
- Hinged lid seals splices without rewiring.
- Simple 3-step installation fixes code violations quickly.

Patent# 11,881,695

WIRE WAFFLE

c UL us LISTED
MADE IN USA

Multiport NM Cable Connector/Fitting

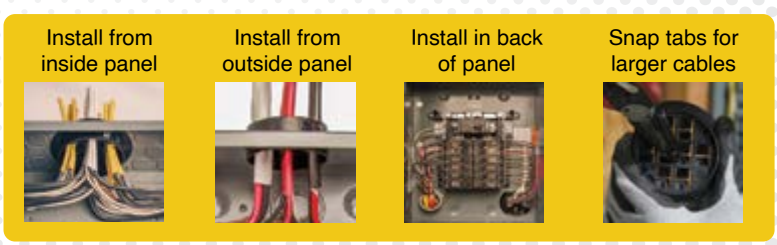
Part# KO25W

Installed in 2.5” panel knockouts to connect up to 16 different cables through a single hole. Cut labor time down by reducing the number of KO’S electricians will have to open, it will reduce wear and tear on tools, clean up panels, make panel upgrades significantly easier, reduce damage to walls, and satisfy code.

Features:

- Meets code (NEC 312.5(c).
- Allows for 14/2 through 10/3 cables with break-off tabs that allow for cables size 8/2 through 6/3.
- The only code-compliant NM wire connector that allows for more than six cables in a single KO.

Patent# 11,824,338



KO KILLERS

Plastic Snap-In Knockout Fillers

The fillers snap easily in place sealing a knockout. No tools required and the ability to snap in and snap out with ease. A cleaner aesthetic for non-metallic enclosures. These knockout seals are made of non-conductive plastic and are available in 1/2″, 3/4″, 1″, 1-1/4″, 1-1/2″, 2″ sizes and a various mix an assorted pack.

Features:

- UL Standard 514C.
- No tools required.
- Fits thin (1/32″) and thick (1/8″) wall thickness
- Snap in and out with ease.
- Non-conductive.
- Made in North America.

at Rack-A-Tiers.com

RAT500

1/2" RapidFire NMCable Connectors

Suitable for all 1/2 in. knockouts. Fast and Easy. No tools required.

Features:

- UL Listed – UL Standard 514B
- Single Cables Only: 12/3, 10/3, 10/2
- One or Two Cables: 14/2, 14/3, 12/2
- Installs from the outside
- Now available in buckets

Part# RAT500

RAT750

3/4" RapidFire NM Cable Connectors

Rapid fire NMSC 3/4″ connector. Fast and easy, no lock nuts required!

Features:

- UL Listed – UL Standard 514B.
- 50/bag.
- Single Cables: 8/3, 6/3.
- Install from outside.

Part# RAT750

TOM 2-WAY ROMEX NMSC CONNECTORS

Part# TT550

2-Way 1/2" NM Cable Connector

A NMSC/Romex connector that installs from inside and outside the box. Suitable for all 1/2 in. knockouts. Fast and Easy. No tools required. Just squeeze and snap them into the desired knockout to secure your wires as they enter the enclosure. These connectors are perfect for old work and new work and are especially helpful in retrofit situations.

Features:

- UL Listed – UL Standard 514B.
- Single Cables Only: 12/3, 10/2, 10/3.
- One or Two Cables: 14/2, 14/3, 12/2.
- Can be installed from outside or inside of a box.
- Made in Canada.

STUD BUDDIES

Snap-In Metal Stud Bushings

Why Square Bushing? 70% More cross sectional area! More cables, easier pulls.

Features:

- One piece.
- One hand installation.
- Fits all standard steel studs & punches.
- Fire rated V.O.

Part #
SB240 - Square (100 pack)
SB220 - Round (100 pack)

Part# LJ50R

LEVEL JACK

Self-Levelling Low Voltage Mud Ring

An alignment tab that reaches across wood/metal studs to level low-voltage outlets with A.C. boxes. If you want to be precise about your rough-in layout, just clip it onto the AC box and screw it down. No level, no tape measure, no special boxes, no special fitting required. Level Jacks fit most AC boxes.

Features:

- No tape measure or level required.
- Available in 1/2″ (30/box).
- Improves drywall finish.
- Supports 1/2″ stud mounting.
- Reduces AC interference to low-voltage devices.

CABLE CHASE

Screw on multi-hole cable bracket

Designed to provide a straight, clean path for wires with no obstructions. The brackets allow you to greatly reduce friction and stress on wires being pulled through the holes.

Features:

- ETL Listed #5016895.
- Conforms to UL STD 2239.
- Certified to CSA STD C22.2 No. 18.4.
- Patented design.
- Accepted by IEAI.
- Avoid drilling holes to protect floor joists and manufactured wood.
- Prevent damage from crooked holes, sharp edges, and splinters.

Cable Bracket for Home Runs

Eliminates the need to staple each home run individually. This easy to pull through and easy to install device creates an organized trunk-line back to the panel in a fraction of the time.

Features:

- ULC Listed #E482304
- Quickly and easily supports multiple NM-B, MC and Low Voltage cables in electrical home runs.
- Innovative design allows multiple cables to be installed in confined areas with ease.
- Greatly reduces labor time.

BUSGUARD

Electrical Panelboard Filler

Electrical panel filler that installs right onto the busbar of your panel instead of the front cover to prevent electricians from making direct contact with the busbars.

Part# 79810 Compatible with push on type THQL, BR, Q, HOM & CHOM.

Features:
- Shields the busbar to prevent shock and arc flash risks.
- 5 per pack.
- A second version will be available in the spring for QO breakers.

Part# 79810

SHIM MY BOX

Part# S1203

Ribbed Tubing you Can Cut to Size

Tired of twisting wire into a coil or trying to track down washers to shim your plug or switch? With the Shim My Box all you have to do is cut the length you need from this straw like piece.

Features:
- 9” length tubes for electrical devices.
- 4 per pack.
- Easy to use.

6 1/2" Magnetic Access Plate

No need for drilling or damaging drywall with this removable access plate.

Installs quickly and mess free with rare earth magnets. Snaps in place with the metal clips (included). The Plate will cover a 5 1/2” square hole or 5 1/2” diameter round hole.

Features:
- Installs in seconds with rare earth magnets.
- Can also be used to cover a round hole with up to a 5-1/2" diameter.
- No need for drilling or damaging drywall with this removable access plate.

Part# D612

MAG DADDY
MAGNETIC FASTENERS

MAG DADDY MAGNETIC FASTENERS UTILIZE ULTRA-STRONG MAGNETS TO STRAP WIRE AND CABLE. MAG DADDY MAGNETS WILL STAY ATTACHED THROUGH OIL, GREASE, PAINT OR DIRT. A VARIETY OF CONFIGURATIONS ARE AVAILABLE TO SUIT YOUR NEEDS.

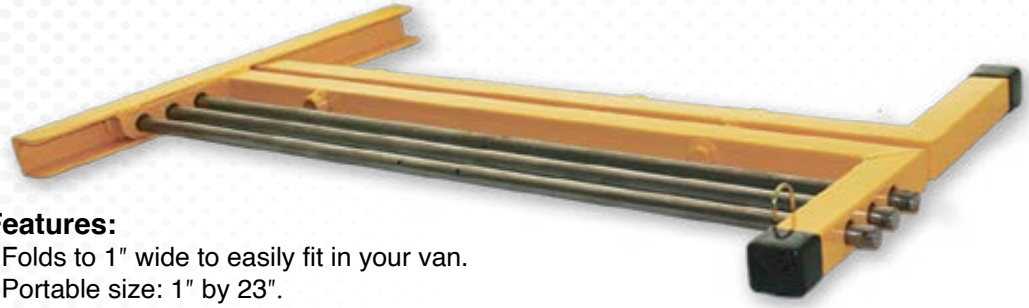
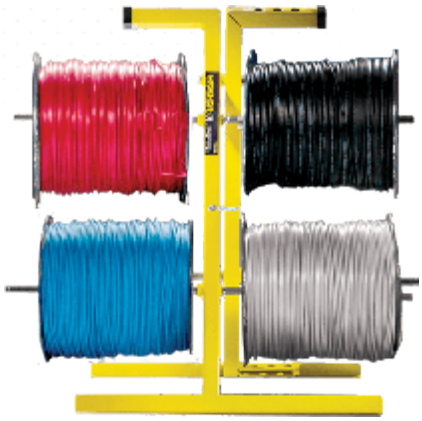
THE X DISPENSER

Collapsible Wire Dispenser for various reel sizes

A portable, fold-up wire dispenser. Folds down to just 1″ thick to easily fit in your work vehicle. Easy to set up, easy to put away. Your go to wire dispenser when it comes to pulling small single-conductor spools.





Features:

- Folds to 1″ wide to easily fit in your van.
- Portable size: 1″ by 23″.
- Maximum spool quantity: 6. 500′ reels of #10 AWG wire.
- Maximum spool diameter: 8″.
- Max spool width: 9″.

REEL-END

Part #17455

SOLD IN US ONLY

Broken Spool Repair

How many broken spools are in your shop? Fix them with the Reel-End. It pays for itself with the first roll of wire saved and it's reusable!

Features:

- Organize your wire spools with the reel-end wire spool repair kit.
- The Reel-End repairs common plastic spools #10 through #18 gauge.
- Reel-End diameter 6 1/2″
- ½" conduit included.

THE STICK

Part# 11555

STUD MOUNTED WIRE DISPENSER

The Stick is a wire dispenser that is installed on to any standard stud. With a 15' reel width, the stick is designed to handle up to 200 Lbs. and fits virtually anywhere. Its compact design allows for simple storage once the job is complete.

Features:

- Weight capacity: 200 lbs.
- Maximum 15″ reel width.
- Made in USA.

THE POCKET SPINNER

Part# 17250

Compact, Customizable Wire Dispenser

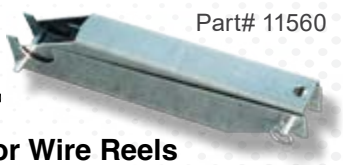
A lightweight, knockdown wire reel holder designed for easy assembly and portability. Built to handle a variety of reel sizes and shapes, it's perfect for quick, efficient wire dispensing on any job site.

Features:

- Compatible with ½" EMT conduit for legs and axles.
- Easy assembly with no tools required.
- Handles a mix of reel sizes, shapes, and quantities.
- Portable, knockdown design for effortless transport.
- Ideal for dispensing wire, tubing, rope, and more.
- Made in USA.

4REEL BRACKETS LLC

Part# 11560



Dispensing Bracket for Wire Reels

Clamps onto standard 2×4 wood studs and can hold multiple 1,000′ NMD reels/Romex reels. Reduce installation time with these rigid, high-quality wire dispenser brackets.

Features:

- Each 4Reel includes 2 brackets and 2 release pins.
- Made for a maximum of 4 - 1000′ NMD reels or weight equivalent.
- Max Weight: 700 lbs.
- Clip together for easy storage.
- Made from galvanized steel.
- To be used on 2×4 wood studs only. Not meant for steel studs.
- Made in USA.

EZ ROLL

Part #55455

Wire Dispenser on Wheels

E-Z Roll is a wheeled wire dispenser that makes moving and pulling wire effortless. Load spools once, roll them anywhere without disassembly, and collapse it for easy storage. moves wire reels effortlessly, eliminating the need to carry them by hand or lift a dispenser. Its wheels allow smooth rotation for pulling wire in any direction.

Features:

- Supports up to 150 lbs. and 18" wire spools.
- Load and roll wire reels effortlessly—no heavy lifting or disassembly.
- Wheels rotate for pulling wire in any direction.
- Collapsible design fits easily in job boxes, trucks, or vans.

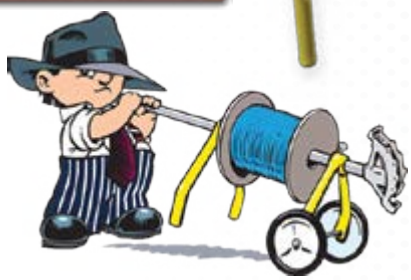
*Pipe Not Included

EZ Roll Multi

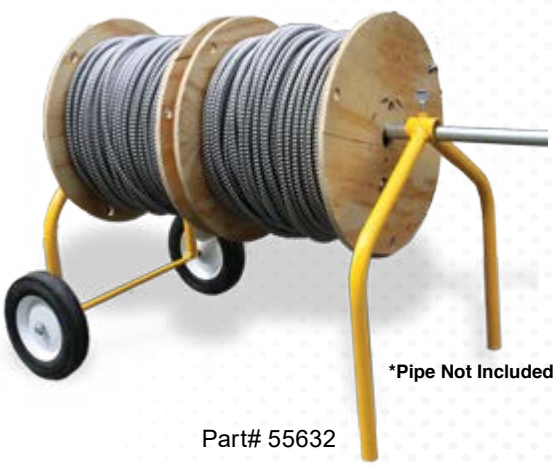
Part# 55456

Attachment Legs for Your E-Z Roll

Get the most out of your E-Z Roll wire rack with the new E-Z Roll Multi. This handy add-on extends the E-Z Roll's use by allowing more wire spools to be added, giving it even more functionality & capacity.



BIG EZ



*Pipe Not Included

Part# 55632

The Big E-Z utilizes the same design and great features as the original EZ Roll while allowing you to dispense larger wire spools.

A compact, portable dispenser designed specifically for NMSC, AC,and Flex coils. Easily stored in a tool bag or work vehicle thanks toits lightweight design.

Features:
- Folds away for easy storage.
- Compatible with NMSC, AC and Flex coils.
- Weighs less than 3 LBS.

WIRE DISPENSERS & CADDYS

Caddy Mac 1

Part #11901

LARGE WIRE SPOOL DISPENSER AND CADDY

Transports spools, dispenses wire flat, and works as a dolly. Fixed 1/2” spindles lock during transport and swing out for easy spool loading. Efficient and hassle-free!

Features:

- Fits various spool sizes with wire guides for smooth dispensing.
- Patented spindle locks keep fixed 1/4” spindles secure during transport, with swing-out design for easy loading.
- Holds 8 spools (#10 AWG) or 24 (#12 AWG) up to 7.5” (19 cm) in diameter, with spindles stored securely in loops.

Caddy Mac 2

Part #11902

LARGE DOUBLE ROW WIRE DISPENSER AND CADDY

Holds 16–24 spools of #12 AWG wire. Its hinged design allows easy access to spools for dispensing and folds for compact storage. Swing-out spindles enable convenient loading, while inner spindles store securely in loops to prevent falling out during transport.

Features:

- Holds 16–24 spools of #12 AWG.
- Folds for compact storage. Offers easy spool access with a hinged design.

Spool Mac

Part #11900

LARGE CABLE SPOOL DISPENSER

Simple solution for moving large reels with spool arms featuring rollers for smooth rotation. Built strong and durable, it’s ideal for heavy-duty wiring jobs.

Features:

- All-steel frame with no loose pieces.
- Easy cable dispensing setup and compact storage.
- Fits through 32” (81 cm) doorways.

Clyde’s Cable Cart

Part #25900

SOLD IN US ONLY

LARGE WIRE STORAGE AND DISPENSING CART

Clyde’s Cart is a large capacity wire dispenser rack on casters. It allows you to store your wire and dispense it when you need. Specifically designed top bracket to accommodate a piece of plywood to convert it into a worktable.

Features:

- Holds 32 rolls of 14/12 AWG wire on 8 small spindles (5/8" OD) and large spools on 2 spindles (1.25" OD) with optional safety pins.
- Ladder tabs for step ladder transport and a frame to support a plywood shelf (not included).
- 3,600 lbs. load capacity, 160 lbs. weight, with 4 casters (2 locking).

Reel End fits on the small spindles for unspooling wire from damaged reels.

ER-GO 50 WIRE REEL CARRYING HANDLE

Add an ergonomic handle to wire spools for easier, faster transport. Perfect for carrying electric wiring, steel cable, or chain, it works seamlessly with most standard spools.

Part# 56050

Features:
- Fit hole sizes 1 3/8"–1 3/4", up to 50 lbs.
- Made of FibreX PP + GF30 (30% glass fiber-reinforced polypropylene).
- Quick-release handle swivels and locks for easy transport.
- Carry two spools at once to save trips.
- Prevents finger injuries from bare-handed lifting.
- Doubles as a wire dispenser when spools are suspended.

TUG WISE

LAZY SUSAN LARGE WIRE DISPENSING TOOL

The Tug Wise is a Lazy Susan-style spinner for large wooden or plastic wire reels. Simply fasten it to the spool base, flip it over, and pull wire with ease. Lighter and more portable than jack stands or reel wagons, it fits easily in your van and allows wire pulling in any direction without adjustments.

TUG WISE STANDARD

Features:
- Handles up to 1,000 lbs., fits wooden and plastic reels.
- Durable polypropylene construction for heavy workloads.

Part# 11931

TUG WISE SUPERIOR

Features:
- Covers wide range of cable reels.
- Screwed to the bottom of wood or plastic reels.
- Works in the back of the truck too.
- 15” Wide.

Part# 11940

TUG WISE EXTREME

Features:
- Handles up to 6,000 lbs.
- Made of heavy-duty steel and built to last.
- 20” Wide.

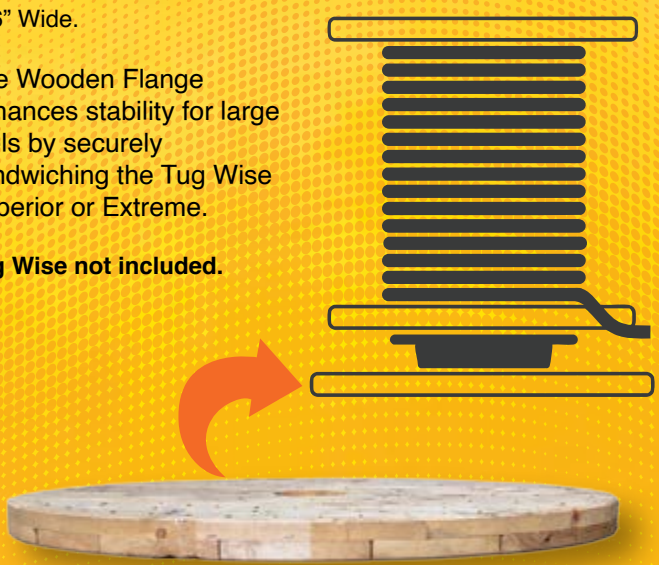
Part# 11942

TUG WISE WOODEN FLANGE

Features:
- 36” Wide.

The Wooden Flange enhances stability for large reels by securely sandwiching the Tug Wise Superior or Extreme.

Tug Wise not included.



Part# 11950

COPPER WIRE STRIPPERS

RECOVER COPPER & ALUMINUM QUICKLY & EASILY WITH THESE MONEY MAKING MACHINES

CWS-2

Part# 47200

The top selling CWS-2 model weighs in at only 45lbs. This wire stripper is compact enough to easily move around, but still has the ability to strip a wide range of wire.

Features:

- Strips from 14 AWG to 750 MCM.
- Strips NMSC cable 10-14 AWG.
- 1/2 HP Motor.
- All aluminum frame.
- Hardened one piece blade.
- Strips solid core or braided wire.
- Blade made from tool steel.
- Blade easily re-sharpened.
- Fully adjustable wire guide.

CWS-1

Part# 47100

The CWS-1 is the largest wire stripper available from Rack-A-Tiers. Powered by a 1 HP motor and with the ability to strip up to 3" in diameter, there isn't much this wire stripper can't handle.

Features:

- Strips 14 AWG to up to 3" in diameter.
- Strips NMSC cable 10-14 AWG.
- 1 HP motor.
- All aluminum frame.
- Hardened one piece blade.
- Strips solid core or braided wire.
- Blade made from tool steel.
- Blade easily re-sharpened.
- Fully adjustable wire guide.
- Bench model - anti-slip base.
- Made in Canada.

Part# 47020

Easy Stripper

Strip the cover off your scrap wire in minutes with the Easy Stripper! Increase your earnings on every single job you complete.

Features:

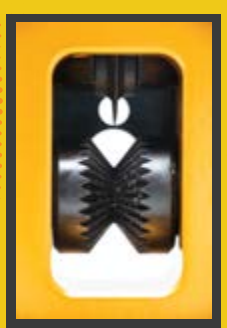
- Less than 10% the price of a standard motorized wire stripper.
- Strips 12 to 4/0 wire.

THE WIRE PEELER

The Wire Peeler is a portable, drill operated wire stripper for recycling your scrap wire. Stop missing out on extra cash, strip it down and get top dollar. An upgraded version of our Easy Stripper, the Wire Peeler is a well built machine for a great price.

Features:

- Drill operated portable wire stripper.
- Strip from 14 AWG - 4/0.
- Strip 10 - 14 AWG NM Cable.
- Hardened one piece blade.
- Fully adjustable 3-hole wire guide.



Part# 47025
