Wattstopper

Discontinued - Digital Dimming Wall Switch, 1 paddle, w/IR, White

Part No. LMDM-101-W

The LMDM-101 Digital Dimming Wall Switch is a low voltage device for dimming control of one or more lighting loads. It is part of a Digital Lighting Management (DLM) system and can dim load(s) connected to DLM dimming room controllers and switch load(s) connected to DLM on/off room controllers.

Features & Benefits

- Low voltage switch for control of dimmable loads
- LED bar graph indicates relative light level of controlled load
- IR transceiver for wireless configuration and remote control
- Plugs to other components using Cat 5e cable and RJ45 connectors eliminating wiring errors
- Active Dim feature enables temporary adjustment of any selected load

Specifications

General Info

Product Line	Wattstopper	Replaced by Part Number	LMSW-211-W
Color	White	UPC Number	754182929238
Country Of Origin	China	Material	ABS
Switch Type	Push	Number of Switches	1
Application Sector	Commercial	Warranty Type	5-Year

Dimensions

Product Width US	1.8 in	Product Weight US	0.1833 lb
Product Depth US	1.6 in	Product Height US	4.1 in

Additional Information

RoHS Compliant	Yes	DesignLights Consortium Qualified System	Yes
Security	Yes	Product Environmental Profile	Yes

Technical Information

Operating Temperature Min	0 °C	Compatibility	DLM Wired
Has Battery	No	Number of Connections	2
Operating Temperature Max	55 °C	Number of Buttons	1
Number of Rockers	0	Input Voltage	24 VDC
Indoor/Outdoor	Indoor	Mounting Type	J-Box
Current Draw	5 mA	Operating Temperature	0°-55°C, 32°-131°F
Operating Humidity	5-95% RH (Non-Condensing)	Location Rating	Dry
Wire Connection Type	RJ-45	Engraving Type	Blank
