CHARCOAL/ DRIFTWOOD (CHL)

BLACK / BLACK (BK)

DAISY | 88826

For larger spaces, a larger blade span is sometimes required. This minimalist design is pure and simple. Elongated plywood blades span 60 inches and finished in Matte White contrasting the motor housing's Natural Aged Brass finish. The two tone finish makes for a stylish and bright fan great for interior spaces. Wall control with dual slide dimmer and fan speed control is provided.

JEWEL | 61019

An elegant fusion of function and fashion, this contemporary Fandelight features a bold Black band segmented by highly reflective plated Gold crystal settings. The settings support beveled crystal accents on jewel-inspired prongs a set distance from the fixture enhance its iridescence allowing natural and ambient light to glisten off its faceted surfaces. Encircled within is an internal ring in Black that houses an LED light source directing ample light downward.

DARLING | 61022

For those with smaller spaces in need of a fan, this is the Darling Fandelight. Eliminating the downrod of a typical fandelight, this hugger Fandelight provides stylish trends with a low profile integrated fan. The combination finish of Natural Aged Brass, Matte Black, and the white fan blades make this a design that delivers trend, not just functionality. Fully dimmable and the features can be controlled by wall control provided or through its Wifi-enabled technology.

TULUM |61012|61014

Natural Rattan wicker forms a sloping drum shade with integrated fan and LED light source. The Dark Bronze finish of the metalwork encases an LED ring at the bottom directing light downward. Finished in outdoor coatings for the rattan and the metalwork, this Fandelight is designed for covered outdoor spaces. Add coastal flair and find some respite under the breeze flowing from the FanDelight by Maxim.

RESOURCES

The direct current fans, or DC fans, are powered with a potential of fixed value such as the voltage of a battery, while An AC fan motor is an electromechanical device that converts electrical energy into mechanical energy to rotate fan blades.

Damp Rated Fans are suitable for use in outdoor areas with covered ceilings such as patios or open walkways.

Wet Rated fans are approved for use outdoors that may experience direct contact with water.

The ETL Listed Mark indicates to distributors, retailers and customers that your product has been tested by Intertek and found in compliance with accepted national standards.

Energy Star is a government-backed labeling program that helps people and organizations save money and reduce greenhouse gas emissions by identifying items that have superior energy efficiency.

California Energy Commission regulation that lists both Title 20 and Title 24 Appliance energy requirements.

Department of Energy (DOE) federally regulated Fan listing.

Dimmable led lights mean you can adjust the brightness or lumen levels according to your needs.

Wi-Fi enabled means that a device can connect to the Internet when there is a local Wi-Fi network connection available.

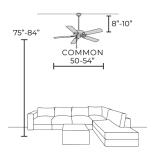

WiFi enabled Control allows the user to control color temperatures between a range, typically between warm 2700 and cool 5000K and everything in between.

Either toggle or remote based switch that allows the user to define between 3-5 fixed color temperatures with memory function.

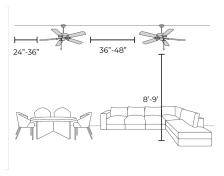

FAN IN LIVING ROOM

A fan should be 75-84" from the ground while keeping 36-48" above a seating area. For optimal air distribution keep 8-10" from the ceiling.

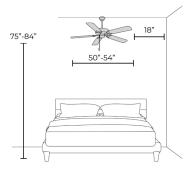

Side Note: See chart for optimal size.

MULTIPLE FANS IN A LARGE SPACES

Large open spaces may require more than one fan in the room. Fans should be spaced 24-36" away from any wall, and leave at least 36-48" between fans.

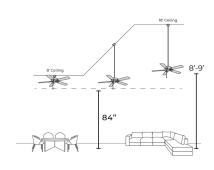

ABOVE A BED

A fan should be 75-84" from the ground while keeping 36-48" above the bed. Leave an 18" distance from any surrounding wall.

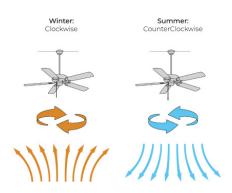

Side Note: Common sizes for fans in a large bedroom are 50-54".

FAN HEIGHT

A fan should hang at least 84" from the ground to the ceiling. $\,$
