

Key Management

Ensure the Long-Term Intergrity of Your Key System

Intelligent Key Cabinet (IKC)

Electronically controlled steel cabinet that restricts access to keys

- Identify who has removed which keys and when. Audit trail and reporting by user and activity.
- Employees retrieve keys quickly without waiting for a manager. Eliminate time spent searching for, or replacing lost keys – always know who took which key, and when.
- Identify potential problems in usage patterns with real-time data and custom reports.
- Multiple cabinet sizes, with iFob key port options of: 32, 64, 96, 128, 160, 192, 224, 256, 288. XT key port options are 32 and 64.
