MODERN  
FORMS  
SMART  
FANS

ALL MODERN FORMS SMART FANS  
ARE TITLE 24 & TITLE 20 COMPLIANT

# DESIGN INTEGRITY

---

Intentionally engineered for durability and continuity throughout your design.

## MATERIALS

---

Sturdy die-cast aluminum & marine-grade stainless steel housings provide elegance and sophistication.

## COHESIVENESS

---

Maintain design continuity indoors and out by selecting a designer fan that complements the architecture.

## WET RATING

---

Wet rated Smart Fans celebrate your home as an oasis for both indoor and outdoor living.

Across the Modern Forms brand, each smart fan is beautifully crafted for both interior and exterior applications. Architectural powder coated finished or 316 Marine grade stainless steel housings and rigid composite or solid carved wood blades are among the upgrades built in across the line.

Adding outdoor rated fans extend your enjoyment of the seasons by delivering a refreshing wind chill or keeping the bugs off while surrounded by nature.

The range of outdoor rated designs ensure you can maintain perfect harmony with the architectural style of any structure.

Whether you need a tiny 26 inch flush mounted fan or an epic 120 inch fan, Modern Forms has a fan that will allow you to carry your design throughout indoor and outdoor living spaces for seamless design continuity and connectivity.

# MODERN FORMS SMART FAN TECHNOLOGY

Modern Forms is a highly reputable luxury brand with a complete line of smart indoor/outdoor ceiling fans in a wide range of sizes and designer styles that include intelligent controls and advanced technologies.

Modern Forms also offers a groundbreaking, patented ceiling fan and UV-C system - reflecting their commitment to technology and safety for their customers.

Each Modern Forms Smart Fans is intuitive for the modern customer—simple, yet personalized. Set up automated schedules and control your smart fan from anywhere. If you prefer an off-line experience, each fan operates efficiently and consistently at the push of a button using a factory-paired Bluetooth remote or wall control.

Enhanced security and multiple-user limited authority makes it suitable for both residential and commercial environments. Plus, multiple fans can operate on one circuit as never before, limited only by the load capacity of the circuit.

The smart fans integrate seamlessly with leading smart home systems you already own, including Control4, Google Assistant, Josh AI, Crestron, Amazon Alexa and Samsung SmartThings. Incorporate voice commands for a modern connected experience. Sync Modern Forms Smart Fans with smart thermostats such as Ecobee, to reduce heating and cooling bills throughout the year.

# MODERN FORMS BLUETOOTH REMOTE TECHNOLOGY

---

CONTROL WITH CONFIDENCE.

Bluetooth Remote Technology controls both luminaire brightness and six fan speeds to ensure performance and reliability.

Nearly every Smart Fan is equipped with an energy efficient, state of the art LED luminaire—engineered by WAC to deliver beautiful robust illumination and precise 100-0% dimming control.

Change from summer to winter mode from your Bluetooth control to circulate cool air flow or reverse the fan to redistribute warm air. With your Modern Forms Smart Fan, easily switch modes at the push of a button or automatically as your thermostat changes from cooling to heating.

A Bluetooth remote pairs easily to an infinite number of intelligent ceiling fans located within a 150 foot range.
