

49223-W1C

DISCONTINUED - QuickPort WAP (Wifi) Kit, one port

DISCONTINUED

Suggested Replacement SKUs: :

The QUICKPORT Wireless Access Point (WAP) Kit for WiFi applications combines all the pieces necessary to install a testable permanent link for cabling that terminates in plenum spaces. The kit is ideal for Ethernet-enabled devices that mount on or above ceiling tiles, such as WAPs and WiFi cameras. The system protects installed cabling by providing a stable mounting and reliable termination point, offering a more reliable and consistent connection than a direct-connect plug, and reducing the possibility of damage during construction. As a convenient set, the QUICKPORT WAP Kit includes everything needed for fast, easy deployment: two ATLAS-X1 Cat 6A connectors (6AUJK-RW6) in white, one QUICKPORT In-Ceiling Bracket (49223-CBC), one 2-Port extended-depth plenum Surface-Mount Box (4S089-2WP) in white, and two plenum-rated Cat 6A solid-conductor patch cords (AXPPP-10W) 10-feet long in white.

UPC Code : 078477903162

Country Of Origin : Please Contact Customer Service

Features and Benefits

- Provides a testable permanent link in drop ceilings to WAPs and other connected devices
- Complete plenum-rated system of cable, connectors, patch cords, boxes, and brackets
- Patch cords are constructed from noise-cancelling UTP cable with Leviton-patented segmented isolation wrap
- Supports ANSI/TIA TSB-162-A standards recommending two Cat 6A cable runs to each WAP
- Works with standard drop-ceiling hardware such as drop wire or rods

One-port kit includes:

- One Atlas-X1 Cat 6A Connector (6AUJK-RW6) in white
- One QuickPort In-Ceiling Bracket (49223-CBC)
- One 2-Port extended-depth Plenum Surface-Mount Box (4S089-2WP) in white
- One plenum-rated Cat 6A solid-conductor patch cord (AXPPP-10W) 10-feet long in white
