Cold Water Submeter, 3/4 x 5/8 inch, Bronze

3/4 in by 5/8 in Bronze Water Submeter with Couplings

DISCONTINUED

Suggested Replacement SKUs: :

The Bronze Muli-Jet Cold Water Submeters represent an ideal balance between accuracy, cost, and longevity. These submeters offer sensitivity with limited flow and are unaffected by common particulates and build-up that would freeze other metal types. They may be used in a variety of applications including apartments and condominiums, mixed use office buildings, and commercial/industrial facilities. These submeters are compatible with popular automated submeter reading hardware, streamlining the data collection process. Wireless AMR transmitters are easily integrated, eliminating the need for hardwiring to the data collection system.

Technical Information

Product Features

Meter Configuration : Single
Meter

Product Line : Water
Submeters

Product Type : Water
Submeter

Features and Benefits

- Meets AWWA C-708 standards
- NSF/ANSI Standard 61 certified
- Tamper detection and prevention
- Patented frost protection (option)
- High-quality, life-long parts
- Durable basket strainer protects from damage
- Built-in freeze protection
- Six wheel odometer direct read register
- Electronic output registers available for AMR interface
- Register units—US gallons, cubic feet, cubic meters
