

2026 DOOR HARDWARE

OMNIA

MANUFACTURERS OF FINE LOCKSETS & ARCHITECTURAL HARDWARE

Suggested Retail Prices Effective January 1, 2026

The story of OMNIA

Over 60 years ago, our company's founder, Alberto R. Comini came to this country with a vision to introduce beautifully designed and crafted Italian architectural hardware to the U.S. market. To this day, OMNIA has steadfast ties to Italy, and while now helmed by the next generation of Comini family members, we continue to stay true to our founding principle of forging our own path.

It is all the people behind our products that make up the OMNIA family, including our fiercely loyal employees, and our customers and vendors with whom we have fostered long-standing relationships. As our business grows, so does our family tree and new opportunities are greeted with Italian hospitality and warmth.

Over the course of our history, OMNIA has built a legacy upon developing products innovative in both design and technological advancement. Our focus is always on what lies ahead, and we constantly challenge ourselves to stay in the forefront of our industry.

OMNIA products are meticulously fabricated from the finest brass materials and premium-grade stainless steel to meet exceptional standards and a finished project of your dreams. Choose hardware that is expressly YOU, and come to know the look and feel of OMNIA.

This catalog showcases our current product offerings, shown with suggested retail prices that are subject to change at any time.

Products Overview

FINISHES 5

LATCHSETS 6–41

- Modern Latchsets 7–12

LATCHSETS

Stainless Steel or Solid Brass Trim

OMNIA's latchsets in this program are packaged complete with knobs or levers, specified roses, tubular latch, a metal spring loaded sub-rose, spindle, and all mounting hardware. An installation template is included. Lever latchsets are supplied with extra heavy duty latches.

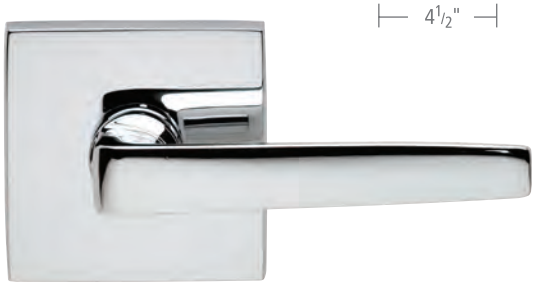

Functions are passage, privacy, and single dummy. These latchsets are designed both for new installations and for replacement hardware on doors with a standard $2\frac{1}{8}$" bore. Backsets of $2\frac{3}{8}$" and $2\frac{3}{4}$" are available.

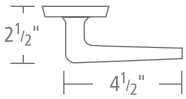

The designs range from traditional to contemporary to ornate in a selection of finishes to complement any design motif.

AUXILIARY DEADBOLTS

Solid Brass or Stainless Steel Trim

OMNIA's line of auxiliary deadbolt kits has many features which ensure a product of high security and style. The designs range from traditional to contemporary to ornate in a selection of finishes to coordinate with other OMNIA hardware offerings. Both the 1" deadbolt throw with sawproof inserts and the armored strike reinforcement with 3" wood screws provide optimal security.

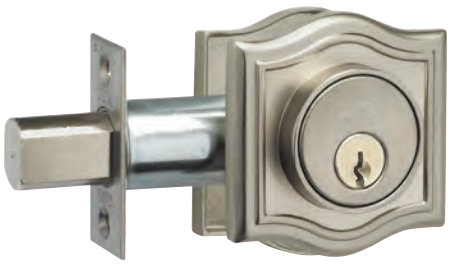

The OMNIA COLDB, MODDB, TRADDB and D9000 Auxiliary Deadbolts are available as OMNIA + level smart locks. See page 71 for details.

MORTISE & DEADBOLT LOCKSETS

Solid Brass or Stainless Steel Trim

OMNIA's locksets with solid brass or stainless steel trim are the locks of choice for optimal security and stunning design. An extensive range of knob and lever styles are available with either mortise or tubular deadbolt lock options.

Built to withstand heavy use, our commercial grade, UL listed, fire rated, mortise locks are precision engineered for security and durability. Available with two backset options (2½" and 2¾"), all of our mortise locks are designed for use with heavyweight knobs or levers, with special springing provided on lever sets.

OMNIA's line of deadbolt locksets provide the ease of installation, while maintaining the stylish look of a mortise lockset.

Unique to all OMNIA deadbolt locksets is the sleek, flush-mounted cylinder design which not only enhances their appearance but provides excellent protection against tampering with the cylinder mechanism. Available with two backset options (2⅜" and 2¾").

All OMNIA Deadbolt Locksets are available as OMNIA + level smart locks, except for items D24570, D25430, D25508 and D25748. See page 72.

NARROW BACKSET LOCKSETS

Solid Brass Trim

OMNIA's narrow backset mortise locksets are ideal for use wherever a slim, elegant look is desired. In addition to enhancing any setting where they are employed, these slender designs provide superlative security with a standard mortise cylinder lock. This lock can also be used with OMNIA's standard thru-bolted roses. A perfect blending of classic style in a range of finishes, combined with American made reliability.

POCKET DOOR HARDWARE

Solid Brass or Stainless Steel Trim

OMNIA's solid brass and stainless steel pocket door hardware is ideal for bedroom and bathroom installations. Modern and traditional trim designs complement any décor and either feature concealed mounting screws or are force fit.

The collection includes locking and non-locking configurations featuring push button ejected mortise edge pulls with spring assistance. Privacy is achieved with either a butterfly deadbolt, or a hook bolt. Most trim styles are also available as flushcups for use on pocket, barn and sliding doors.

MULTIPOINT TRIM

Solid Brass & Stainless Steel

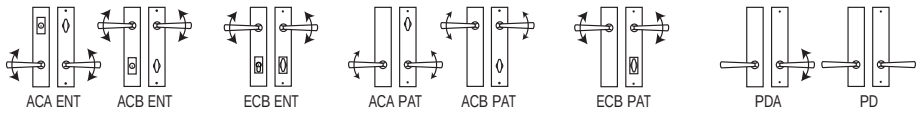

OMNIA's multipoint trim offers a high-end alternative to the basic trim that comes standard on swinging patio doors. Manufactured using the highest quality brass and stainless steel, the design options complement any aesthetic, be it traditional, modern or ornate.

All of OMNIA's multipoint trim is available in multiple lock configurations: American Cylinder Above (ACA), American Cylinder Below (ACB) and European Cylinder Below (ECB). This line allows for the opportunity to match OMNIA trim on a wider array of interior and exterior doors throughout residential projects.

ENTRANCE HANDLESETS

Stainless Steel Trim

OMNIA Entrance Handlesets, an unparalleled collection crafted with uncompromising quality, make for a grand entrance. The mortise lock offers the best security features to be had, and is available in several locking functions, with 2½" or 2¾" backsets. The tubular deadbolt handlesets are for use on doors with 5½" center-to-center holes, at 2⅜" backset and 2¾" backset.

Whether modern, traditional or ornate in style, each and every OMNIA Entrance Handleset is beautifully designed and constructed of the finest materials. At OMNIA, design and safety are not exclusive from each other.

Certain models of OMNIA Metro and Urban Entrance Handlesets are available as OMNIA + level smart locks. See page 73 for details.

HINGES

Solid Brass

Designed for medium-weight doors, of average and low-frequency usage, these solid brass hinges are suitable for both light commercial and residential installations. Ideal for use on wood or hollow metal doors and their corresponding frames, our hinges feature a stainless steel, rust-proof pin which is knurled at the top to prevent rising, yet is “free-floating” within the barrel of the hinge. The pin can be easily removed by unthreading each finial and tapping the pin upward. Each hinge set is shipped with standard button tips. Other finial designs are available and are compatible with all hinges regardless of size.

US32D Satin Stainless Steel

Care of Product

OMNIA's Stainless Steel requires minimal attention and will not tarnish or corrode under normal circumstances. However, exposure to certain chemical or environmental conditions may promote surface oxidation. Please be aware that this is not a defect in the stainless steel but a reaction on the surface of the finish to the chemical environment which can be removed with stainless steel polish, or an abrasive pad.

SPECIFY 2 3/8" OR 2 3/4" BACKSET.

Prodigy Latchsets Product Data

Knob & Lever Latchsets

- 2⅜" (standard) and 2¾" backsets available.
- Supplied for both 1⅜" and 1¾" door thickness as standard. The minimum door thickness is 1¼" and the maximum door thickness is 2½" (please specify).
- All lever latchsets meet ADA accessibility requirements.
- Each set consists of solid brass knobs or levers, thru-bolted rose mechanisms, finished rose covers, latch, strike, faceplate, spindle, all necessary mounting screws, installation template and instructions.

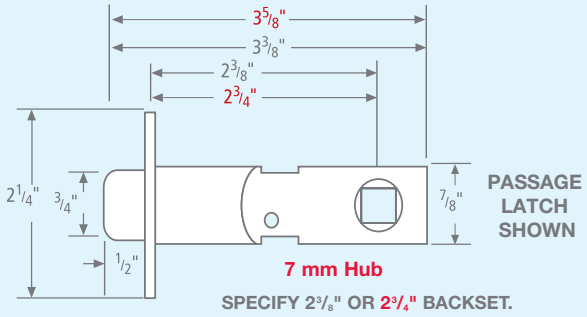

Tubular Latch Features

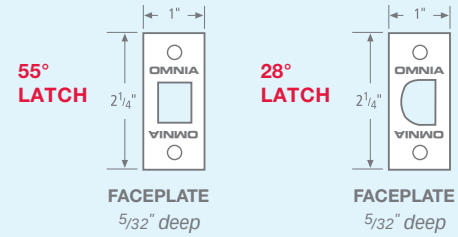

- 55° rotation to retract latch. (For knobs)
- 28° rotation to retract latch. (For levers)
- Tough, non-rusting materials used throughout. Face covers and strikes are solid brass. No.014 "Full Lip" strike supplied as standard or No. 013 "T" strike as an option. (Specify.)
- For over fifty-five years, OMNIA's latches have been opening and closing millions of doors all around the world.

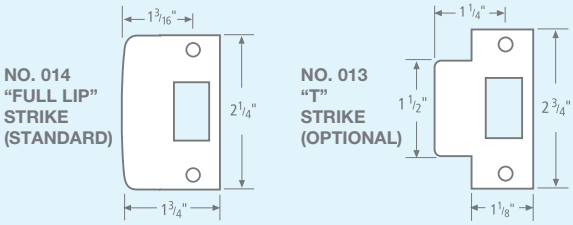

Functions

- **PA – Passage:** Latch operates by knob or lever from either side of door.
- **PR – Privacy:** Push pin provided for privacy inside room. Emergency release hole for outside room. Emergency release key also provided.
- **SD – Single Dummy:** Trim on one side of door only. Surface mounted. Knob or lever with rose. For pair dummy, order two single dummies.

All OMNIA lever latchsets meet ADA accessibility requirements.

Mortise Deadlocks Product Data

Specifications

- **Backset:** Available with 2¾" backset standard. 2½" backset special order only.
- **Doors:** 1¾" thick with 4½" minimum stile as standard. For doors over 1¾" thick, please specify door thickness.
- **Case:** Heavy wrought steel with zinc dichromate finish for corrosion resistance. 4" w x 3" h
- **Front:** Adjustable armored steel front, with 1⅛" w x 4⅝" h solid brass or stainless steel faceplate for all lock bodies.
- **Deadbolt:** 1" proj. x ⅝" thick x 1 1/16" h full throw stainless steel.
- **Springs:** High carbon steel.
- **Strike:** Solid brass or stainless steel strike plate. 1⅛" w x 3½" h
- **Cylinder:** Solid brass from bar stock. Made in USA. Schlage® "C" keyway supplied as standard, with two OMNIA nickel silver keys. When applicable, cylinder collars are supplied with compression spring. Available on special orders with a variety of other keyways and key combinations.
- **Keying:** Specify Keyed Alike (KA) when needed. Master/Grand/Construction keying available at additional cost.

Auxiliary Deadbolts Product Data

FOR PRODUCTS SHOWN ON PAGES 43-45.

Specifications

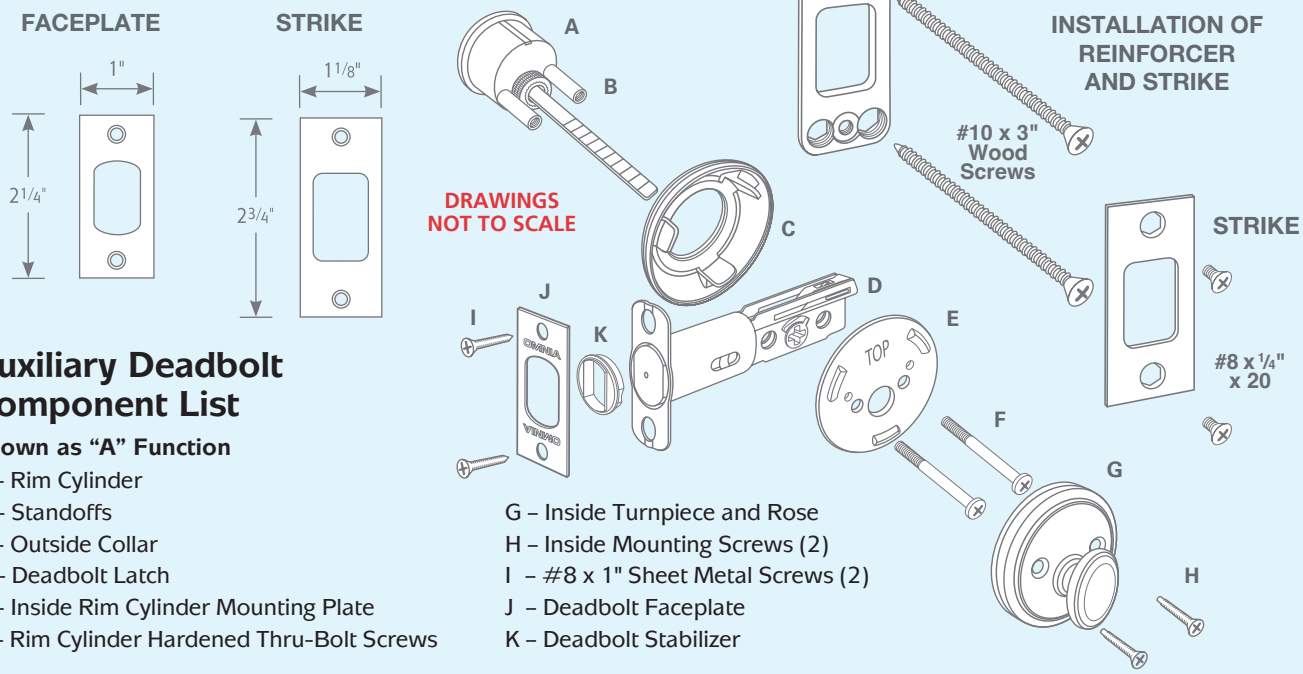

- Available in 2 3/8" or 2 3/4" backsets. Please specify backset at time of order.
- Available for 1 3/8" or 1 3/4" thick doors. Please specify door thickness at time of order. **For doors 2" thick or thicker, please call OMNIA for additional charges that may apply.**
- Suitable for most pre-existing bores for cylindrical locks.
- Supplied with Schlage® "C" keyway as a standard. Available on special order with a variety of other keyways and key combinations.
- Deadbolt employs a rim cylinder for ease of re-keying and key changes.

Lock Functions

- **A –** Activated by key outside and turnpiece inside.
- **AC –** Activated by key only from either side. (For stainless steel auxiliary deadbolts only.)

Supplied With:

- 2 3/4" x 1 1/8" x 3/16" armored strike reinforcement.
- All parts shown in schematics below.

Available with two backset options — 2½" or 2¾". Please specify when ordering.

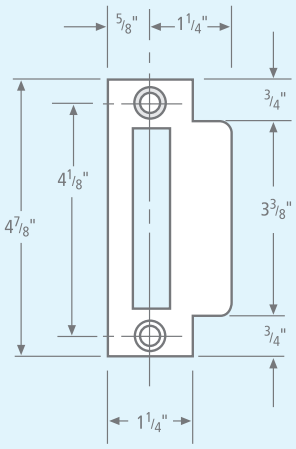

- **Backset:** Available with two backset options: 2½" or 2¾". Please specify backset on order.
- **For Doors:** 1¾" thick as standard. For doors over 1¾" thick, please specify door thickness.
  - 2½" b.s.: with 3⅞" minimum stile
  - 2¾" b.s.: with 4½" minimum stile
- **Case:** Heavy wrought steel with zinc dichromate finish for corrosion resistance.
  - 2½" b.s.: 3⅝" x 6 1/16" x 15/16"
  - 2¾" b.s.: 3 15/16" x 6 1/16" x 15/16"
- **Front:** Adjustable armored steel front, with 8" x 1¼" solid brass faceplate for all lock bodies. Finished to match trim.
- **Latchbolt:** Two-piece anti-friction design made from solid brass. Both lock bodies with 1" x ⅝" x ¾" full throw.
- **Deadbolt:**
  - 2½" b.s.: 1 3/16" x 9/16" x 1" full throw solid brass with sawproof insert.
  - 2¾" b.s.: 1⅛" x ½" x 1" full throw stainless steel.
- **Springs:** High carbon steel.
- **Strike:** Solid brass curved lip strike. 4 7/8" x 1¼" x lip 1¼" to center. Finished to match trim. Dust box supplied as standard. Extended lip strikes available.
- **Hand:** When ordering specify right or left hand, and reverse bevel if applicable. Reversing instructions available.
- **Cylinder:** Solid brass from bar stock. Made in USA. Schlage® "C" keyway supplied as a standard, with two OMNIA nickel silver keys. When applicable, cylinder collars are supplied with compression spring. Available on special order with a variety of other keyways and key combinations.
- **Keying:** Specify Keyed Alike (KA) when needed. Master / Grand / Construction keying available at additional cost.
- **Safety Standards:** 2½" and 2¾" b.s.: UL Listed 3 Hour (R13846). Grade 1 certified to ANSI/BHMA A156.13.2005 standard — exceeding 5 million cycles at independent third party test facility.

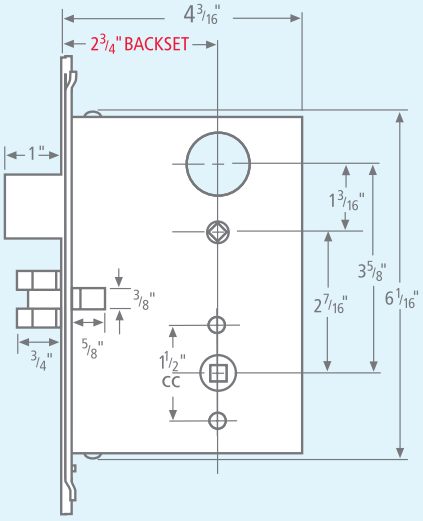

DRAWINGS NOT TO SCALE

2½" Backset Lock

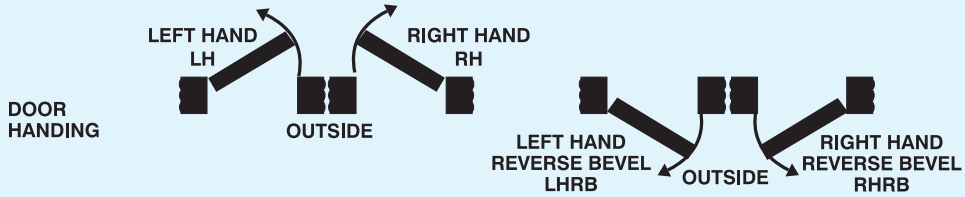

Same strike supplied with both 2½" and 2¾" b.s. locks.

Extended lip strikes available.

2¾" Backset Lock

Mortise Locksets Product Data

FOR PRODUCTS SHOWN ON PAGES 47-69.

Mortise Locksets

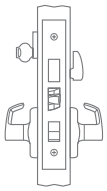

Available with two backset options — 2½" or 2¾". Please specify when ordering.

All lever entry sets provide a lever outside and a lever inside with matching rose or backplate. If the outside trim is a lever with plate, the inside trim will match. If the outside trim is a lever with rose, the inside trim will be a lever with rose. The same is true for sets employing knobs. For additional trim options, see our Latchsets section.

Functions

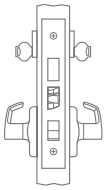

A – Standard Entry
ANSI# F08

Latchbolt operates by knob or lever from either side except when outside trim is locked by stopbutton; then opens by key outside, by knob or lever inside. Deadbolt activated by key outside and by turnpiece inside.

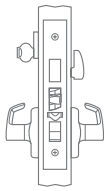

AC – Double Cylinder Entry

Latchbolt operates by knob or lever from either side except when outside trim is locked by stopbutton; then opens by key outside, by knob or lever inside. Deadbolt activated only by key from either side.

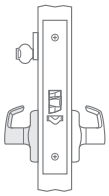

F – Panic-Proof Entry
ANSI# F12

Latchbolt operates by knob or lever from either side except when outside trim is locked by stop button. Deadbolt activated by key outside and turnpiece inside. Turning of inside knob or lever will retract both deadbolt and latchbolt at the same time.

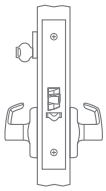

EW – Storeroom
ANSI# F07

Latchbolt operates by knob or lever inside and by key outside. The outside knob or lever is rigid. Auxiliary latchbolt deadlocks latchbolt.

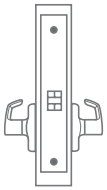

J – Classroom
ANSI# F05

Latchbolt operates by knob or lever either side except when outside knob or lever is locked or unlocked by key in the cylinder. Auxiliary latchbolt deadlocks latchbolt.

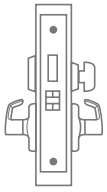

N – Passage

Latchbolt operates by knob or lever either side.

L – Privacy
ANSI# F02

Latchbolt operates by knob or lever either side. Deadbolt by turnpiece inside and emergency key outside. Turning of inside knob or lever will retract both deadbolt and latchbolt at the same time.

Additional lock functions are available, including electrification.
Please contact OMNIA for pricing and availability.

Commercial Installations: Please specify when ordering locksets for commercial use. Dummy applications are *not* recommended for commercial use.

Made In U.S.A.

c UL us LISTED

All OMNIA lever latchsets meet ADA accessibility requirements.

Sectional Trim Mortise Locksets

When ordering mortise locksets with sectional trim, please note: Locks in the **1000 Series**, will be supplied with the rose as shown with that specific model knob or lever in the Latchset section of this catalog (traditional, beaded, ornate or roped). Locks in the **2000 Series**, will be supplied with the modern rose as shown with that specific knob or lever in the Latchset section of this catalog. Locks in the **2000S Series** will be supplied with the square rose as shown below.

Deadbolt Handlesets Product Data

(Stainless Steel Metro & Urban Tubular Sets)

Available in two backsets – 2 3/8" or 2 3/4" (2 3/8" backset shipped standard). Please specify when ordering.

Features

- Our stainless steel tubular deadbolt handlesets each consist of a set of exterior trim, lever interior trim as selected, extra heavy duty tubular latch designed for levers and spindle, deadbolt assembly, cylinder, all necessary mounting screws and template.
- **Backset:** Available with two backset options – 2 3/8" or 2 3/4" (2 3/8" backset shipped standard). Please specify when ordering.

Lock & Trim Functions

- **F – Panic Proof:** Latchbolt operates by knob or lever inside, thumbpiece outside except when outside trim is locked by rocker switch. Deadbolt activated by key outside and turnpiece inside. Turning of inside knob or lever will retract both deadbolt and latchbolt at the same time.
- **PD – Pair Dummy**: Dummy trim is non-operating and is mounted on the inside and outside of the door. Shipped pre-assembled.
- **SDE – Single Dummy Exterior:** Dummy trim is non-operating and is mounted on the outside of the door. Thumbpiece is also non-operating. Shipped pre-assembled.
- **SDI – Single Dummy Interior:** Dummy trim is non-operating and is mounted on the inside of the door. Shipped pre-assembled.

Hinges Product Data

(For Standard Weight Hinges)

Available in standard weight with either ball or plain bearings to satisfy most applications. The hinges are all manufactured from solid brass extrusions, providing higher degrees of strength and tolerance.

General Information

- All hinges are shipped assembled with pins installed.
- Standard weight hinges are available in **ball bearing or plain bearing.**
- **Doors equipped with closers should always have ball bearing hinges.**
- Mounting templates are available. Do not use the hinges to make cut outs on metal doors and frames.
- Hinges are supplied with wood screws standard. **Machine screws are available upon request.**

Suggested Location of Hinges

- **Top Hinge:** 5" from jamb rabbet to top edge of hinge barrel.
- **Bottom Hinge:** 10" from bottom edge of hinge barrel to finished floor.
- **Middle Hinge:** Centered between the top and bottom hinges.

The above are U.S. standard procedures.

How to Determine Proper Hinge Height

Thickness of Door	Width of Door	Height of Hinges
1⅜"	to 32"	3½"
1⅜"	Over 32" to 37"	4"
1¾"	to 36"	4" or 4½"
1¾"	Over 36" to 48"	4½"
2"–2½"	Over 42"	4½"*

*Minimum 4 hinges recommended.

Number of Hinges Required on Doors

Door Height	# Hinges Required
To 60"	2 Hinges
61" to 90"	3 Hinges
91" to 120"	4 Hinges

Finial Options

All finials, both top and bottom, screw in separately into the barrel. Hinges are shipped with button tips as standard on all orders. Pairs of acorn, ball, crown, steeple and urn finials are available at an additional cost. See page 93 for item numbers and prices.

Use the abbreviations below to specify your finial choice.

STYLE	FINIAL CODE	
Button	**BTN**	*Shipped standard*
Acorn	**ACN**	
Ball	**BAL**	
Crown	**CRN**	
Steeple	**STP**	
Urn	**URN**

OMNIA TERMS & CONDITIONS OF SALE

(as of January 1, 2026)

WARRANTIES

Limited Mechanical Warranty

OMNIA Industries, Inc. ("OMNIA") offers to the original owner a Limited Warranty that all OMNIA products shall be free of mechanical abnormality for the duration that the original owner inhabits the residence in which the product was originally installed.

Exclusions

Any OMNIA product having an abnormality due to improper installation, forced entry, failure to exercise normal maintenance or against the consequences of uses for which our products were not designed is not covered by this warranty. Additionally, if an OMNIA product or component part is used with a product that is not ours or a component part (such as an OMNIA lock or latch with non-OMNIA knobs, levers, escutcheons and roses), any warranty shall be null and void. Warranty does not cover normal wear and tear.

FINISH WARRANTIES

(Includes General Maintenance)

Stainless Steel

OMNIA warrants its stainless steel finish shall be free from abnormalities in material and workmanship from tarnishing or rusting for either five (5) years from date of purchase for interior use or one (1) year from the date of purchase on exterior doors only for the duration that the original owner inhabits the residence in which the product was originally installed. Exposure to certain chemical or environmental conditions may promote surface oxidation. Please be aware that this is not an abnormality in the stainless steel but a reaction on the surface of the finish to the chemical environment which can be removed with a stainless steel polish or an abrasive pad. **Surface oxidation is not considered an abnormality in the product.**

Stainless Steel PVD

The OMNIA PVD finishes use an advanced finishing technology (Physical Vapor Deposition) to create a finish highly resistant to the effects of weather and normal use. For OMNIA products purchased with PVD finishes, OMNIA warrants the finish shall be free from abnormalities in materials and workmanship from tarnishing, flaking or pitting for the **Lifetime** of the applicable product for the duration that the original owner inhabits the residence in which the product was originally installed. Although the OMNIA PVD finishes are highly resistant to the effects of weather and normal use, they do require periodic maintenance. A build-up may occur if it is not performed, which may create a haze or darker look to the finish. This is neither tarnish nor an abnormality in the PVD finish. OMNIA PVD finishes can be maintained simply by wiping with a soft cloth and glass cleaner; or as an alternative, a non-abrasive metal polish which can be purchased at any hardware store. Rubbing alcohol may also be used to clean the surface of PVD finishes. ***DO NOT use metal polishes that contain abrasives.***

Remaining Finishes

OMNIA warrants its finishes (excluding unlacquered finishes, stainless steel and stainless steel PVD) shall be free from abnormalities in materials and workmanship from tarnishing, flaking or pitting for either five (5) years from date of purchase for interior use, or one (1) year from the date of purchase for use on exterior doors only for the duration that the original owner inhabits the residence in which the product was originally installed. Only use a damp cloth to clean surface of finish to remove dirt and grime. ***DO NOT use household cleaners and/or chemicals.***

Exclusions

Any OMNIA product having an abnormality due to neglect, misuse, abuse or unreasonable or extraordinary use or lack of normal maintenance is not covered by this warranty. In addition, any OMNIA product having an abnormality due to use of paints, solvents or other chemicals is not covered by this warranty. Discontinued products will not be covered by any warranty. Finishes will not be warranted for any OMNIA product installed on an exterior metal door.

FOR ALL WARRANTIES, PLEASE NOTE: OMNIA is not responsible for labor charges related to installation, repair or replacement of any product under this warranty. OMNIA's liability under this warranty shall not exceed the sale price of the product.

PRICES

Prices are subject to change without notice. Invoices will reflect prices in effect at the time of shipment. OMNIA is not responsible for errors and/or omissions which may appear in any printed material. Orders held by OMNIA because of credit status may be repriced to pricing in effect on date of order release by OMNIA Credit Department.

RETURNED GOODS

Products must be returned within 60 days of original invoice date. There is a minimum 25% restock fee, plus a freight charge, for all unused and undamaged items returned in original condition. All returns must be accompanied with a completed Return Goods Form (RGF). Any return which exceeds $1,000 net requires prior authorization. If a factory defect is claimed, please contact OMNIA for replacement or authorization. Any credit due will be determined upon inspection. Reordered or replacement materials will be billed when shipped. Returns will be credited after inspection and approval. All returns must be shipped freight prepaid. COD returns will be refused. Special order or discontinued items will not be accepted for return.

ORDERS & SPECIFICATIONS

OMNIA has the right to not accept orders in part or whole if the quantity, finishes or prices requested are not suitable. Packing, weights, measurements and designs are subject to change without notice. All special factory orders are non-cancelable, non-returnable and non-refundable.

ORDER CHANGES

If there are items not readily available, OMNIA will ship and backorder. Items temporarily out of stock will be backordered and so indicated on invoice. Backorders must be canceled prior to shipment of product. Orders canceled after shipment from OMNIA will incur freight charges and a 25% restocking charge. Address changes after shipment will incur freight charges.

DISCONTINUED ITEMS & D/O

OMNIA may discontinue product or alter specifications at any time without prior notification or obligation. D/O designates a product which will continue to be available as long as inventory remains, after which the product will be discontinued. This program is intended to help our customers anticipate future needs and to avoid bidding or taking orders on parts which may not be available in sufficient quantities when needed.

SHIPMENTS

Smaller orders, shipments destined outside the US borders, and **all specially quoted contract orders are shipped FOB Cedar Grove, NJ**. Cremone bolt orders do not qualify for prepaid shipments. Freight charges will apply to contract orders. Please refer to job quote. There will be a handling fee in addition to freight charges. (Drop ship orders incur a higher handling fee.) In certain instances, a fee for insurance coverage may be added. OMNIA will select the quickest and best routes available. Consignee assumes risk of loss or damage after shipments have been delivered to carrier. Claims must be filed with the transportation company. We cannot accept consignee or third party billing for any shipment.

OPEN ACCOUNTS

Established accounts will be maintained on open account terms as long as payments are kept current. New accounts must submit proper trade and bank references.

SAMPLE PROGRAM

Cabinet Hardware

Samples of cabinet pulls up to 6" and cabinet knobs up to 1¼" dia. are available free of charge with a $10 shipping fee for each item ordered. A maximum of 3 samples can be ordered. If ordering more than one sample, the additional samples must all be different part numbers.

Door Hardware

Single dummy samples of door knobs and levers with a list price value up to $75 are available free of charge with a $20 shipping fee for each item ordered. For single dummy samples with a list price value of $76 and over, there is a $30 shipping fee for each item ordered.

For each sample ordered, you will receive a discount coupon in the amount of the shipping fee. For each $100 list purchase made through an authorized OMNIA dealer, you may apply one discount coupon. Since there is no charge for the product samples themselves, they cannot be returned to OMNIA for product credit.

If you are interested in a sample of a product other than cabinet hardware or single dummies, please contact OMNIA for shipping costs.

An Authorized OMNIA dealer may request a complete *Dealer Terms & Conditions* by emailing info@OMNIAindustries.com.

OMNIA

In addition to the selection of latchsets and locksets shown in this catalog, OMNIA also offers beautifully crafted decorative cabinet hardware and architectural hardware. For a comprehensive view of all of our lines, please visit our website at:
