

Connected in quality.

HOSPITALITY SOLUTIONS

SAFE, RELIABLE CONNECTIONS

WITH VIEGA® PRESS TECHNOLOGY

Viega products can be pressed in seconds wet or dry, a significant time savings over traditional methods. There is no need to drain the full system and pressure tests can be performed immediately.

With no hot work, fire watches are unnecessary. That means there's no need for additional manpower, plus you can skip the messy or labor-intensive tools.

Quality you can depend on, tested to the limit. Viega ProPress and MegaPress systems have been tested for seismic certification in conjunction with ICC-ES AC 156, the most widely recognized testing procedure referenced in ASCE 7 and the International Building Code (IBC).

Viega press fittings offer a variety of transition couplings to accommodate multiple piping materials to harness the features and benefits each has to offer where local codes allow. Transitions from copper to PEX offer flexibility and absorbs expansion & contraction.

PROPRESS®

SEALING ELEMENTS: EPDM, FKM, HNBR
MATERIAL: COPPER
PRESSURE: 300PSI
SIZE: ½" – 4"

Viega ProPress systems have the most approvals of any copper press fitting system, with over 400 unique configurations available. Each fitting and valve is equipped with Smart Connect technology, allowing for easy identification of unpressed connections. Plus, there's no need for hot work, making Viega ProPress suitable for a wide range of projects.

MEGAPRESS®

SEALING ELEMENTS: FKM, HNBR, EPDM
MATERIAL: CARBON STEEL, 304 STAINLESS or 316 STAINLESS
PRESSURE: 200PSI
SCH: 5 - 40
SIZE: ½" – 4"

Ideal for facility utility needs, the Viega MegaPress system is easy to use, flameless, and reliable. Most often used for natural gas, hydronics, and compressed air, MegaPress leaves no joining material buildup, exposed threads or tarnish, creating a clean, professional appearance.

MEGAPRESS® G

SEALING ELEMENTS: HNBR
MATERIAL: CARBON STEEL
PRESSURE: 200PSI
SCH: 10 - 40
SIZE: ½" – 4"

Viega MegaPress G fittings are a safer, faster, and cleaner way to connect gas pipe. MegaPress G press fittings and valves are easy to install saving you time and labor, and are compatible with a wide range of approved applications including natural gas and propane.

PUREFLOW®

MECHANICAL CONNECTION
MATERIAL: PEX
PRESSURE: UP TO 160PSI
SIZE: 3/8" – 2"

Install with ease using the Viega PureFlow system. PureFlow is the only system in the industry offering press transition fittings, allowing transitions from PEX to copper in seconds with the same tool. Designed to meet strict potable water standards, PureFlow fittings, valves and tubing undergo rigorous testing for quality and performance.

Keeping your hospitality facilities running 24/7 is vital; unplanned repairs and downtime can have a big impact on revenue and customer satisfaction. Optimize piping systems on your next hospitality project with the safety and security of Viega press fittings and valves.
